PRIVATE LTE/5G RAPID-DEPLOY KIT

INDIGICASE

PORTABLE PRIVATE NETWORK IN A RUGGEDIZED CASE

A private network in a box.

Private LTE/5G and satellite-backed connectivity—anywhere.

When infrastructure is limited, damaged, or nonexistent, INDIGICASE Private Network in a Box establishes a secure private cellular or Wi-Fi network in minutes. The self-contained, field-ready case combines edge core, radio, routing, power and flexible backhaul for mission-critical operations.

KEY CAPABILITIES

- Rapid deployment — fully integrated and operational in under 30 minutes.
- Private LTE/5G core — secure SIM/eSIM provisioning for CBRS or licensed spectrum.
- Flexible backhaul — satellite, fiber, microwave or wireless uplink options.
- Ruggedized transit case — weather-resistant and shock-protected.
- Carrier and CBRS compatible — supports licensed, shared and unlicensed spectrum.
- Scalable coverage — expand with additional radios or mesh nodes.

When networks fail, the mission can't wait

Disasters, remote terrain, and surging demand routinely outpace fixed networks. A traditional Cell-on-Wheels can take weeks to months to arrive. Teams need coverage that deploys in minutes — and works when everything else fails.

Infrastructure fails

Storms, wildfires, and outages knock out cellular exactly when it's needed most.

Coverage gaps

Rural, tribal, and remote areas are routinely beyond reliable carrier reach.

Too slow to deploy

Permanent builds and carrier COWs take weeks — response can't wait.

Missions move

Events, worksites, and operations shift location and demand constantly.

BUILT FOR

Disaster response • Tribal spectrum • Rural broadband • Utilities • Public safety

INDIGICASE

PORTABLE PRIVATE NETWORK IN A RUGGEDIZED CASE

A private network in a box.

WHAT'S INCLUDED

- Integrated private network core
- LTE/5G radio (CBRS or licensed band options)
- Edge compute and routing
- Secure SIM provisioning
- Power distribution system
- Ruggedized deployable enclosure

OPTIONAL ADD-ONS

- Satellite backhaul kit
- Solar charging solution
- Extended battery packs
- Tripod or mast mount kit
- Managed NOC services

TARGET INDUSTRIES

- Emergency management
- Tribal governments
- Utilities and energy
- Defense and homeland security
- Agriculture and smart farming
- Oil and gas
- Remote healthcare

OPERATIONAL BENEFITS

- Deploy in under 30 minutes
- Supports voice, video, IoT and data
- Secure and encrypted
- Scales for temporary or semi-permanent sites
- Operates independently of damaged infrastructure

WHY INDIGICASE?

Connectivity is essential infrastructure. When disaster strikes, communities are beyond INDIGICASE Private Network in a Box creates an independent network at the point of need—supporting first responders, rural broadband and sovereign spectrum operations.

INDIGITECH
