To Whom It May Concern,

Handitots would like to reach out and ask for a donation of your time, labor, and materials to help build a 10' x 20' front porch with a wheelchair ramp and a 10' x 10' deck on the back of a home. Together, we can serve our community and make a meaningful difference for a family in need.

Mike is one of our clients who love coming to our program, he participates in everything that is offered. He enjoys the skills he learns and socializes with his friends. Mike lives with his sister, Brandi. A few weeks ago, Mike fell and suffered a serious medical setback and was hospitalized in Houston for a week after complications with his shunts caused fluid to build up on his brain. We are thankful to God that he was able to return home safely.

Although Mike is home, he remains weak and is currently using a walker while he continues his recovery. Since returning home, he has experienced several falls, making safe access to the outdoors a significant concern.

Mike loves spending time outside and especially enjoys relaxing on his porch swing. A safe front porch with a wheelchair-accessible ramp, along with a deck at the back of the home, would greatly improve his quality of life and allow him to safely enjoy the outdoors during his recovery and beyond.

We are asking for donations of materials, skilled labor, or volunteer time to help make this project possible. Your generosity and support would have a lasting impact on Mike and his family.

Thank you for considering this opportunity to serve a member of our community in need. If you have any questions or would like to contribute, please contact Handitots.

We also have a go-fund-me account, follow us on facebook.

Please help spread the word to your church, friends and family.

Sincerely,

Mary Freeborn
President
