

 **CabStore**
Interior Storage Locker System

After-market in cab storage with an OEM look and feel

Large storage compartments increasing comfort inside

CabStore's large storage volume provides the driver with the maximum usable space inside their cab. Beautifully constructed roller shutter doors allow for a neat opening whilst keeping the contents safe and secure.

Perfect for additional in cab comforts and appliances

CabStore provides the best mounting platform for additional in cab electronics, such as Europe's market leading TruckChef 24v Microwave. CabStore is fully compatible with TruckChef and specifically engineered mountings can be provided.

Quick and Easy fitment mounts on factory fixing points

CabStore's installation process is fast and straight forward. By using factory mounting points it is possible to decrease the amount of time it takes for fitment to just 2 hours! CabStore is provided with clear mounting instructions and telephone support.

Textured and colour matched OEM style interior finish

CabStore's beautiful design boasts a fit and finish which has been colour and texture matched to the trucks interior. It's sleek lines, easy glide roller shutters and overall fitment all come together to create an interior locker system which compliments the trucks interior.
