

## 3.5 Medical Imaging—TYPE I

### Applicable Levels

LI, LII, LIII, PTCI, PTCII

### Definition and Requirements

In Level I and II trauma centers, the following services must be available 24 hours per day and be accessible for patient care within the time interval specified:

- Conventional radiography—15 minutes
- Computed tomography (CT)—15 minutes
- Point-of-care ultrasound—15 minutes
- Interventional radiologic procedures—1 hour
- Magnetic resonance imaging (MRI)—2 hours

In Level III trauma centers, the following services must be available 24 hours per day and be accessible for patient care within the time interval specified:

- Conventional radiography—30 minutes
- CT—30 minutes
- Point-of-care ultrasound—15 minutes

### Additional Information

“Accessible for patient care” implies that the necessary human resources and equipment are available within the time specified. The time interval refers to the time between initial request and initiation of the test/procedure. This does not mean that every test must be completed within the interval specified. Timeliness depends on patient need. Review of perceived delays in imaging that might have affected patient care are a component of the PIPS program.

### Measures of Compliance

- Equipment evaluated during site visit process
- Policies and procedures ensuring availability of services
