

Vehicle Magnetic Care Sheet

How to insure your vehicle magnetics are maintained & last for years.

PRE-APPLICATION

Place the magnet(s) either between two flat, heavy objects or on a flat indoor surface for 12-24 hours before applying to your vehicle.

Wash the surface of the area that the magnet(s) will be applied to using warm soapy water, rinse then dry the surface*.

**Make sure the surface is free from grit or dirt.*

APPLICATION

Allow at least 10-12 hours in colder conditions for the magnet(s) to fully adhere to the vehicle before driving.

MAINTENANCE

Please use warm water with a small amount of soap and gently wipe any dirt debris, oil, tar or other substances that may have landed on the magnetic surface.

Remove the magnet(s) before washing the vehicle. Remove the magnet(s) during severe weather conditions*.

**Below zero temperatures, hail or gale force winds.*

MODE DESIGN

*Some surfaces may be made from aluminium or fibreglass and magnets will NOT stick to them.
