Dear Sir/Madam

Massey University (Oliver Britz; Director of Research Operations, Faculty of Research & Enterprise) signed a Confidentiality Agreement with EFF-GO Ltd in August 2017 and looks forward to the provision of funded specialist advice to their project; EFF-GO prototype - a 21st century solution for 21st century waste; a project with the potential to redefine how organic waste is treated, create a functional circular economy for human waste and the recovery of precious/rare-earth metals.

Yours sincerely,
