Government & Private Sector Readiness

N-TECH delivers technology integration services that support federal agencies, private healthcare providers, and medical device manufacturers. We are fully registered to conduct business with the U.S. government and align our work to FDA, HIPAA, and cybersecurity standards.

- SAM.gov Registered | CAGE Code: 9FRX9 | UEI: VFSBMURJAKW8
- SWAM & Disability-Owned Business Enterprise (DOBE) Certified
- FAR/DFARS Compliant Training & Service Delivery
- Support for Private Hospitals, Ambulatory Surgery Centers & OEM Manufacturers

Core Competencies

- Medical & Surgical Equipment Supply
- Durable Medical Equipment (DME) Distribution
- Pharmaceutical & Diagnostic Product Sourcing
- Hospital & Pharmacy Equipment Procurement
- Biomedical & Imaging Equipment Maintenance
- Medical Technology Implementation & Training
- Supply Chain & Logistics Management
- Government Contract Support & Vendor Collaboration

Value Proposition

We accelerate the adoption of advanced medical technologies by providing turnkey implementation, clinical integration, and training services. From operating rooms to diagnostic centers, we ensure technology starts delivering value immediately boosting utilization, ROI, and patient outcomes.

Key Differentiators

- Woman-owned, minority-led enterprise with U.S. and international supplier access
- Dual expertise in medical device training and supply chain optimization
- Competitive pricing structure through strategic sourcing and lean inventory
- Fast turnaround and on-time delivery for government contracts
- Focus on quality assurance and end-user safety

Cross-Functional Healthcare & Engineering Team:

- Clinical Experts: Pharmacists, Nurses, imaging specialists ensuring workflow alignment
- Project Managers: 15+ years in healthcare IT and medical systems deployment
- Agile Systems Engineers: Seamless integration of software & devices
- Biomedical Engineers: Deep understanding of medical device mechanics
- Financial Analysts: ROI modeling for capital technology investments
