

A modern classic kitchen featuring white shaker-style cabinetry with brass hardware. A dark grey island with a white countertop is the centerpiece, surrounded by three grey upholstered bar stools. The kitchen includes a stainless steel refrigerator, a built-in oven, and a microwave. A large window with a black frame provides a view of greenery outside. A black metal pendant light with four Edison bulbs hangs over the island. The floor is made of light-colored wood planks. A potted plant with white flowers sits on the right side of the room.

CLASSIC KITCHEN

INFRAME SHAKER KITCHEN

STYLISH & PRACTICAL

This classic in-frame shaker kitchen was designed & custom made to enhance a 1930s period home. The classic colour combinations and use of quality materials give a luxurious and stylish feel to the space. Following a full renovation, the space is flooded with natural light which enhances the exquisite details built into the kitchen.

HIGH QUALITY MATERIALS

Built in solid poplar with oak interiors, this kitchen is beautifully balanced with a Caesarstone white attica worktop. The frames were custom made by our skilled team of craftsmen. A restored oak floor and crittall style windows contrast with exposed original brickwork and paneling. Traditional brass handles and top of the range appliances give a luxurious feel.
