

CONSOLE TABLE

WITH BRASS INLAY AND FRETWORK
FRAME

DESIGNED TO IMPRESS

The original brief for this stunning piece of furniture was for a console table that would match the existing, Victorian era panelling in the room. A console table needs to be long and thin and should be supported by corbels or brackets. The client wanted the piece to have the wow factor.

SUPERIOR CRAFTSMANSHIP

This stunning piece is made from a solid piece of walnut with a varnish finish. The design of the brass inlay is carved by hand into the wood creating a void which is then filled with brass wire – a time consuming and precise process in order to achieve a clean, sharp inlay. The fretwork legs were also designed and built by hand to match the period features of the client's room

COMMISSION

If you have a special project in mind to fit a specific design brief, speak to the team at Nordhus Furniture. We can work closely with you on the design and materials available to create something truly exquisite and unique to your home. Contact us at info@nordhus.co.uk
