

THE SECRET DOOR

The hidden walk-in wardrobe & ensuite

DESIGNED FOR FORM & FUNCTION

The original brief for this project was to enhance the storage space in this master bedroom without losing symmetry. A hidden door design was proposed leading to an elegantly proportioned walk-in wardrobe with a master ensuite. A variety of rails, drawers and shelves were requested to maximize storage options.

BESPOKE DETAILS

This in-frame shaker wardrobe was built with poplar doors and solid oak interiors. Hidden routed handles and concealed soss hinges maintained the elegant lines and symmetry of the design. The hidden door leading to the walk-in wardrobe and ensuite added a touch of fun to the room whilst ensuring a clean and minimalist look. Finished with Paint & Paper Library Salt III.

INDULGE YOURSELF

Walk-in wardrobes have become an accessible refurbishment for homeowners across the UK and can really increase the appeal of a master bedroom, making a property feel lavish.

Nordhus Furniture design and build bespoke furniture; wardrobes, kitchens, desks, bookcases and more. Contact us to discuss your plans and ideas info@nordhus.co.uk
