

# Parking + Mobility 2024

## ECOSYSTEM

Utilizing advanced technologies like artificial intelligence and machine learning, the Vision Ecosystem is able to process and interpret data in real-time, leading to more agile and responsive decision-making processes.

ECOSYSTEM

## What is the Parking + Mobility ECOSYSTEM?

The integration of hardware, software, and middleware forms the backbone of modern technological solutions, offering a seamless experience from the user interface down to the deepest layers of data processing. Vision Ecosystem brings it all together for a complete solution.

# Digital Enablement

MAXIMIZE YOUR PARKING POTENTIAL

- + Site branded Scan 2 Pay Signs
- + Add drive up payment options
- + Integrated for gateless + PARCS
- + Add Validation and Permits

## Low Cost

Modernize your operation with minimal investment

## Familiar Operation

A pre booking or pay on arrival parking experience

## Seamless Upgrades

Add full stack functionality with automated enforcement, online permits, validations, etc..

# LP Based Enforcement

Achieve 24/7 enforcement in your gateless parking location by using AI and License Plate technology for an HR free enforcement platform.

Not ready for Automated Enforcement? No problem, our LPR solution is mobile. Using a simple mobile app with AI-powered LPR uses advanced mobile AI to scan at speeds up to 20 mph with sub second scanning performance.

- + Consumer funded
- + Data driven SaaS model
- + Integrated for automation

# Enhanced Operations Visionpay 2024

## Take advantage of new DIGITAL TOOLS provided by the Vision Parking Ecosystem

The Vision Ecosystem is a full stack digital parking technology that represents a comprehensive approach to managing a modern parking operation. By integrating various components such as hardware, software, and services creates a seamless experience for system users. Vision is a cloud-based all-encompassing ecosystem for parking and mobility we can provide using a consumer funded model. The vision platform caters to the needs of modern cities and their inhabitants by providing solutions that fit including offering both a gateless experience by eliminating the need for traditional parking gates, tickets, and equipment as well as a gated LPR driven solution (still ticketless). The Vision Ecosystem full-stack solutions are transforming the parking industry, making it more efficient, user-friendly, and adaptable to the evolving demands of urban environments.

## Contact us today to get enrolled!

Your investment in parking is not taken lightly. Our Vision Ecosystem is the solution to provide the tools to maximize that investment.
