**RSMo § 115.225 (2)(10).** No electronic voting system shall be approved by the Secretary of State unless it: (10) Has been tested and is certified by an independent authority that meets the voting system standards developed by the Federal Election Commission or its successor agency.

**VSTL MANUAL**

# VOTING SYSTEM STANDARDS

**3.6.1. Certificate of Accreditation:** “A Certificate of Accreditation shall be issued to each laboratory by vote of the Commissioners. The certificate shall be signed by the CHAIR of the Commission and state:”

**3.6.1.3.** The effective date of the certification, which shall not exceed a period of two (2) years;”

**3.8.** “Expiration and Renewal of Accreditation. A grant of accreditation is valid for a period not to exceed two years. A VSTL’s accreditation expires on the date annotated on the Certificate of Accreditation.”

# QUESTIONS

- 1 What happens to my vote, cast on a machine, tested and “certified” by a laboratory, that has not been accredited under the mandates of HAVA?
- 2 If the electronic voting systems and their various devices are not lawfully certified, is the effect that I cast an illegal ballot?
- 3 Since Missouri election officials presented to the public uncertified voting systems as certified, did they abridge the People(s)’ federally protected right to vote?
