## Schools

Last week a number of coaches and helpers visited Harestanes Primary School to take part in a Parent?Pupil games evening.

We set up 4 different skills areas to introduce the basics of bowls to the attendees. Using our brightly coloured rubber bowls and a variety of aids such as hula hoops, target mats and hurdles/gates the children quickly learn about aim and distance.

It is hoped that this may encourage the kids to join our coaching programme but also shows our Clubs commitment to raising our profile within our local communities.
