

I drove away from the front of the drug store and parked in front of the restaurant, OK? He came out and walked over to the truck. He was talking to me on the outside of the truck. I had invited him in the truck. He got in the truck he told me he only had a little time. I says "well", I says I, I gotta make a stop and then I'll be coming back up this way". So he rode with me to the house--that I remember. He came to the house--from Nissen Pharmacy over to my house has got to take--first of all we didn't leave until--it was, it had to be 9:00 cause I think the news was on the radio when we were driving down Touhy. We didn't get to my house until about 9:15 - 9:20. I know that I had three or four phone calls while he was there.

We, he had talked about a summer job. I, I told him that I didn't know if I could hire him at all. That he should wait till summer comes. And then, then I don't, I don't know, I told him there was other ways he could make money ••• if that's what he was interested in. He didn't like the idea.

Well, then we were, then I, then he had put the handcuffs on himself and ... He put 'em on. He put the handcuffs on himself.

OK, uh, I, I, then I, of course, expounded further on him getting blown and he didn't like the idea. And then he was scared that he was gonna get killed. He, he said he wanted to go home, cause he thought somebody, that he thought that I was gonna harm him. I said "Why would you say that", ya know.
