CONDITIONS OF SALE

Manufacturer and seller's obligation is limited to the replacement for the quantity of defective material only. Neither manufacturer nor seller shall be liable for any damages directly or consequently arising from the use of **BioPlus** products. Buyer assumes all responsibilities other than stated label guarantees.

GENERAL INFORMATION

BioPlus Greenhouse/Turf Mix is a concentrated biostimulant liquid and a powerful non-phytotoxic wetting agent. It promotes soil microbial activity and enhances nutrient assimilation. **Greenhouse/Turf Mix** can be used in soil or foliar applications.

DIRECTIONS FOR USE

Mix with sufficient water to distribute evenly (minimum 10 gallons of liquid per acre). Can be tank mixed with liquid fertilizers, herbicides, insecticides and fungicides. Use in conjunction with a good soil test and soil fertility program. Always conduct a compatibility test prior to mixing any chemicals.

APPLICATION RATE

GREENHOUSES: 40 fluid ounces per 5 gallons of water using an injector system.

TURF: 4 fluid ounces per 1,000 Sq Ft.

ROSES: 1 teaspoon per gallon as a foliar spray or soil application every 7 to 10 days or with regular program.

NOTE: Application rates may vary due to different soil conditions and uses. Consult your BioPlus Representative for best results in using this product.
