MADE IN THE USA

MetabAlize Pro

CONDITIONS OF SALE

Manufacturer and sellers obligation is limited to replacement for the quantity of defective material only. Neither manufacturer nor seller shall be liable for any damages directly or consequently arising from the use of this product. Buyer assumes all responsibilities other than stated label guarantees.

DIRECTIONS FOR USE

Mix with sufficient water to allow uniform coverage. Can be tank mixed with most liquid fertilizers, herbicides, insecticides and fungicides. Use in conjunction with a good soil test and soil fertility program. Always perform a compatibility test prior to mixing any chemicals. Application should be made within 24 hours after dilution.

Note: Application rates may vary due to different soil conditions and uses. Consult your BioPlus Representative. For order placement please e mail: ibsinc1986@hotmail.com

RECOMMENDED APPLICATIONS

AGRICULTURE: 12.8 fluid oz. per acre or 1 gallon per 10 acres. Can apply up to one pint per acre. Apply to a moist soil or incorporate.

ATHLETIC FIELDS: 2 fl. oz per 1,000 sq. ft. Apply during growing season every 4 to 6 weeks.

GOLF COURSES: To prevent stress and promote root development. **Greens and Tees:** 2 fluid oz. per 1,000 sq. feet. Apply every 4 weeks. **Fairways:** 1 fluid oz. per 1,000 sq. ft. Apply spring and fall.

SPORTS FIELDS: 2 fluid oz. per 1,000 sq. feet. Apply during growing season every 4 to 6 weeks.

TURF: **Established Turf:** 2 fluid oz. per 1,000 sq. ft. Apply every 4 weeks. **New Turf Seeding & Overseeding:** 1 1/4 fluid oz. per 1,000 sq. ft. **Turf Maintenance:** 2 fluid oz. per 1,000 sq. ft. to prevent stress and encourage grass spread. **Turf Sod Installation:** Prepare soil grade for sod. Apply 1 fluid oz. per 1,000 sq. ft. After sod has been laid, apply 1 fluid oz. per 1,000 sq. ft.

GREENHOUSES: New Bedding Plants: 10 fluid oz. per 5 gallons water. Apply with injector system. Ratio 75:1 or 100:1.
