

One People

Lyrics: Denny Anthony

Winning by a landslide
Striving with strain Heavenward
Fallen by the wayside
Living by the Law of Life within
 One People
 One Love we stand
 One Lover
 One Love in strand

Winning by a landslide
Striving with strain Heavenward
Fallen by the wayside
Living by the Law of Life within
 One People
 One Love we stand
 One Lover
 One Love in strand

 No One, know pain
 Know One, no pain

 I set you free and I followed your groan
 I wanted to let you see
 And when you carried you left your own home
 I want you here with me!

Winning by a landslide
Striving with strain Heavenward
Fallen by the wayside
Living by the Law of Life within
 One People
 One Love we stand
 One Lover
 One Love in strand
