

*****REMINDERS TO SAVE YOU MONEY***:**

- **All equipment, tools, machinery, and attachments must be cleaned and re-fueled (where applicable) prior to return or shall be subject to a \$250 cleaning fee per item and fuel at a rate of \$8 per gallon.**
- **NO SMOKING in machines** – any evidence of such will result in a \$500 smoking fee IN ADDITION TO the above \$250 cleaning fee if the machine (including tracks, wheels, glass, paint, cab, etc.) itself is dirty, muddy, greasy, dusty, has garbage left behind, or is in any way unclean.
- **OVERUSAGE:** 1 Day Rental = 8am-6pm, no more than 10 machine hours; 1 week rental = 8am on the day out through 6pm on the 7th day, no more than 50 machine hours; any hours over these limits will be charged at a rate of \$100 per machine hour.
- **NO SUBLEASING** – All equipment rented is intended solely to be rented and operated only by the customer listed; any attempt to sublease any machinery or equipment will be deferred to our attorney for breach of contract. Criminal charges may apply.
- **Machinery and Equipment is NOT TO BE MOVED TO ANY OTHER LOCATION aside from the premises address agreed upon unless approved, in writing, by KB Equipment Rental, LLC.** Per your contract, steep fines apply for doing so and criminal charges may apply.
- **Trailers:** Stop and check straps and chains at first quarter mile; tires are repaired at customer's expense; tire replacement is \$300 per tire; customer is responsible for all turnpike/toll road charges.
- *Please follow manufacturer's instructions for safe operation and intended use. Please always use proper protective equipment when operating any equipment. Customer assumes all liability associated with the use or operation of the above items and holds harmless KB Equipment Rental, LLC (dba KB Equipment Rental), its owners, members, employees, mechanics, affiliates, suppliers, contractors, subcontractors, partners, and associates.*

THANK YOU FOR SUPPORTING LOCAL. A PORTION OF OUR PROCEEDS BENEFIT LOCAL VETERANS AND FIRST RESPONDERS.

PLEASE leave us a review on Facebook or Google if you feel we've done a great job! This helps small businesses such as ours get seen and stay seen. It would mean the world to us (Pretty Please)!

We truly aim to please, but we recognize things may not always be perfect. If you are in ANY WAY unsatisfied, please reach out to us so we can make it right BEFORE resorting to leaving a poor review. This kills small businesses unfairly. We can't help you if we aren't aware and we promise we care, so please let us know. We have been thankful to be supported by such an incredible community. We sincerely appreciate you.

**** BREAKDOWNS**:**

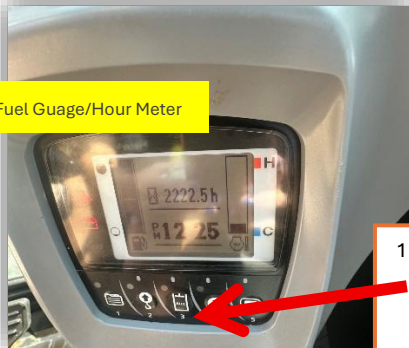

Please both **TEXT** and **CALL** our main line, 724-698-2700 as well as **TEXT** and **CALL** our maintenance tech, Brandan Reesman of MBR Repair, at 724-525-0498. Leave a voicemail if you get the voicemail greeting.

A "HOW TO" video is under the "HOW TO" tab on our website, www.rentKB.com, to show you how to operate the machine.

*****QUICK START GUIDE: KUBOTA KX033-4***:**

1. Close the Door (optional) – **PLEASE BE SURE TO PUSH THIS BLACK LEVER/LATCH TO RELEASE THE DOOR SO YOU MAY SHUT IT** (DON'T JUST PULL ON THE DOOR, THIS LEVER NEEDS PUSHED TO RELEASE IT FIRST)
2. Put Seatbelt On
3. Start the Machine by Turning the Key to the Right

Fuel Gauge/Hour Meter

1. Toggle the "AUX" button to engage **hydraulic thumb** – THEN, the thumb is controlled by the button on the right joystick

1. HEAT/AC controls (ensure button in center is pushed for AC)
2. Windshield Wiper
3. Throttle
4. Lights
5. KEY/START
6. Killswitch (EMERGENCY SHUTOFF)

4. Open the Cab Up if You Wish by Pushing these two buttons on the front glass and pulling the entire window inward toward yourself, then up, until it clicks into place (reverse this order to close the window)

RED SAFETY LEVER

LEFT JOYSTICK

5. Flip the **Red Safety Lever** on Your Left to the "Down" Position to Engage the Machine
 - Move the Entire Machine Forward or Backward or Turn with the Two Sticks in Front of You on the Floor (*also can be controlled with the foot pedals, which do flip out if you wish to use them*)
 - Move the Cab 360 Degrees by Pushing **Left Joystick** to the Left or Right
 - Raise/Lower Bucket by Driving **Left Joystick** Forward/Back
 - Raise/Lower Boom by Driving **Right Joystick** Forward/Back
 - Curl the Bucket Inward/Outward by Pushing **Right Joystick** Left/Right
 - Use the far-right pedal (flip the cover up first) to control the boom swing (*circled in yellow here*)
6. Lift the blade up and down with the blade control or use the button on the blade control to tilt the blade left or right (a good practice is to leave it down when in stationary position for added support)

BLADE CONTROL

RIGHT JOYSTICK

PLEASE LOWER BUCKET/BOOM ONTO THE GROUND BEFORE TURNING OFF THE MACHINE TO KEEP WEIGHT OFF OF THE HYDRAULICS WHEN NOT IN USE.
