Geospatial Market Report 2026

The State of Location Intelligence & the Geospatial Technology Marketplace

Inside this report you will receive:

An analysis of major trends shaping the future of geospatial technology, including:

1. Know where AI investments are creating competitive advantage—and where competitors are wasting money?
2. What are the most important signals driving product development?
3. Understand what customers will be asking your sales team six months from now?
4. How do users transform their organization into the geospatial AI-enabled company?
5. Who are the 10 companies to watch now?

6. Identify which competitors are changing strategy before those changes show up in the market?
7. What are the 10 topics nobody is talking about and why you should know?
8. An Investors Guide to Geospatial
9. *The Skunkworks Conundrum: An AI Artifact*
10. Three Competitive Moats to understand

In addition, the appendices extensively illustrate the following:

- Market maps that classify 200+ companies that are divided by submarket category

LocationIntelligence.ai

- A list of 300+ geospatial technology companies, descriptions and URLs inclusive that comprise a broad spectrum of the geospatial marketplace.
- A list of 50 professional organizations serving geospatial technology
- A list of 23 Academic institutions with geospatial programs.
- A glossary of terms

DELIVERABLES

The Geospatial Market Report includes:

- A structured categorization of companies, announcements and news
- Approximately 90+ pages of interviews, company rankings, and the top 10 companies to watch for AI innovation
- Delivered on August 15, 2026

Optional Items for purchase

- **Executive Virtual Briefing:** 60-minute presentation with Q&A on what the new development in geospatial tech means for your company
- **Briefing Deck:** 25 slides summarizing the trends and news

One more thing to consider

Using AI for insights and research can only do so much. With the geospatial industry evolving rapidly — and with fewer major market research analysts actively covering the broader market — independent intelligence and analysis have become increasingly valuable for executive teams making strategic decisions...You need a trusted expert.
