HYDRA BALANCE

Warm Climate Moisturizer

A breathable, water-based moisturizer that soothes, refines, and supports the skin's barrier while helping control shine. It layers seamlessly under SPF and makeup for a soft, calm, and balanced complexion.

Panthenol (Vitamin B5) - Hydrates, calms, and reinforces the skin's barrier, reducing sensitivity and irritation.

Squalane* - Mimics skin's natural oils to lock in moisture and prevent dehydration.

Propanediol - Provides deep hydrating acting as humectant, soothing and sorting the skin.

*derived from olives

VITAL QUENCH

Adaptable Hydration Serum

A lightweight, moisture-binding gel serum that locks in hydration, helping to firm and plump. Skin stays balanced and comfortable through seasonal changes.

Hyaluronic Acid – Two molecular weights to deeply hydrate and attract moisture.

Peptides (Arginine + EGF) – Help support firmness and reduce the look of fine lines by increasing collagen production.

Collagen – Helps support smoother, firmer, and more resilient skin by improving hydration and reducing the look of fine lines.

Sodium PCA – Helps skin retain hydration and remain resilient.

ULTRA REPLENISH

Warm Climate Facial Oil

The lightweight, nutrient-rich oil restores moisture, supports barrier health, and helps control excess shine. It absorbs quickly, leaving skin soft, smooth, and refreshed without feeling heavy or oily.

Key ingredients:

- Camellia Oil** – Lightweight, antioxidant-rich botanical that absorbs quickly, making it perfect for humidity.
- Vitamin E** – Moisturizes and shields against moisture loss and dryness.
- Raspberry Oil** – Calms and nourishes stressed skin from oxidative stress.

FORTIFY EYE

Restorative Eye Cream

A super concentrated eye cream that works to firm delicate skin, brighten tired eyes, and deliver deep hydration. It helps to visibly reduce puffiness, and shield the eye area from environmental stressors, leaving the skin around the eye looking refreshed and revitalized.

Key ingredients:

Niacinamide – Reinforces the barrier, regulates oil, and improves discoloration

Plant Proteins – Helps improve firmness and elasticity around eyes.

Peptides – Help support firmness and reduce the look of fine lines
