

Private Corporations Are Not Governments! (Part 1)

During the 1990s, alert financial analysts working for the Department of Defense discovered an odd thing. Numbers weren't adding up. A vast amount of public money was being embezzled. As the members of what came to be known as "**The Paradigm Project**" dug deeper, something even more astonishing appeared. Almost all of the governments on Earth were being run as private, for-profit governmental services corporations chartered under the auspices of the UNITED STATES, INC.

All these franchise operations of the US, INC. and USA, Inc. which are named things like: France (Inc.) and FRANCE (INC.) and USA, Inc. and UNITED STATES OF AMERICA and US CORP, and United States Government, Inc. --- are like franchises of Dairy Queen, Inc. They provide government services, but aren't governments.

So first shock -- almost all the governments on Earth aren't governments. They are merely for-profit corporations in the business of providing government services.

Second shock -- these governmental services corporations are operated as franchises of the UNITED STATES, INC.

Third shock -- the US Congress has been running all these governmental services corporations as if they were franchises owned and operated by the Washington DC Municipality, and under their "plenary" control as an oligarchy. (See Part 2 brochure: "Why Do You Need to Correct Your Political Status?")

The American States Assemblies

tasa.americanstatenationals.org

The American States Assemblies are Members of The Federation of States d.b.a. The United States of America, unincorporated (1776).

What Does “Political Status” Mean?

ClaimYourInheritance.info

What Does “Political Status” Mean?

Political status is determined by virtue of your consent to be governed by a specific body politic—a group of people with laws and customs.

The two types of governing body politics in America are the sovereign, unincorporated American government and the foreign, incorporated subcontractors of the British Monarchy d.b.a. the United States of America (USA), Inc. and the Roman Papacy d.b.a. the UNITED STATES, INC. who provide America with essential governmental services.

5

POLITICAL STATUSES

1. American State National
2. American State Citizen
3. United States National
4. U.S. Citizen
5. MUNICIPAL CITIZEN

The American government operates under The Unanimous Declaration of Independence of 1776. The foreign United States government operates under two (2) service contracts, The Constitution of the United States of America (British Territorial Contract) and The Constitution of the United States (Papist Municipal Contract). These contracts were made with the American Federation of States d.b.a. The United States of America, Unincorporated, in 1789 and 1790, respectively. They delegate limited powers to these subcontractors authorizing them to perform the essential governmental services enumerated in their respective contracts.

Your Political Status Can Be as a National or as a Citizen

Nationality is inherited as a birthright. It happens automatically the day you are born. In America, we inherit our nationality from our State. We are New Yorkers, Wisconsinites, Californians, and so on. Thus, our natural birthright political status is an American State National.

American State Nationals can become Citizens either by contract or by serving in a public office for our American Government. Both are voluntary.

Definitions for Citizen include employee, officer, subject, slave and indentured servant.

America is NOT the United States, INC.

America is comprised of 50 sovereign, republican States referred to as the several States of the Union d.b.a. “The United States,” unincorporated (1776).

The Territorial United States is comprised of 57 incorporated inchoate states: 50 “State of” States (State of New Jersey, State of Ohio, State of Wisconsin, etc.) AND 7 Insular States (District of Columbia, Puerto Rico, Guam, Virgin Islands, Northern Mariana Islands, American Samoa, and Wake Island); plus numerous, incorporated British Territorial governmental services franchises: United States Congress, Internal Revenue Service, Department of Defense, etc.

The MUNICIPAL UNITED STATES is comprised of approximately 10,000 INCORPORATED franchises operating as Municipal Oligarchies: “STATE OF ...,” “COUNTY OF ...,” “TOWNSHIP OF ...,” “CITY OF ...,” “BOROUGH OF ...,” “VILLAGE OF ...,” “UNITED STATES CONGRESS,” “UNITED STATES DISTRICT COURT,” “IRS,” “DOD,” etc.

Each Political Status Comes with Inherent Rights

Natural and Unalienable Rights of American State Nationals/Citizens are given to us, in the words of Thomas Jefferson, by “Nature and Nature’s God.” Nobody gave us the “right” to walk, talk, think, move from place to place, or exercise our will. We cannot divest ourselves of these rights and the responsibilities that go with them.

Civil Rights are granted by Congress in the Civil Rights Act of 1866, then upgraded by Congressional legislation in 1968 to “equal” civil rights. This made them equal to the unalienable rights of American State Nationals/Citizens. Civil rights are not---strictly speaking---rights, but are instead privileges conferred on Territorial and Municipal citizens by the US Congress.

The Universal Declaration of Human Rights enacted by the United Nations in 1946 grants rights to “hue-mans.” In law, that’s not a man or woman, but a “color of man” meaning a kind of person that’s created – a mask of man. They’re declaring the rights of all these “humans/persons” that are being created and attached to you for commercial purposes. Human “rights” are the privileges granted to United States Nationals and those who accept the status of “hue-man.” Any Citizen or National may choose to lay aside their inherent rights for “human rights.”
