We are Cosentino

Corporate Purpose

Inspiring people
through innovative
and sustainable
spaces.

Mission

To be a leading company that responsibly imagines and anticipates, with its customers, high value and innovative surfaces for the architectural and design world.

Vision

Lead the global surfacing market by branding innovative architectural solutions that provide design, value and inspiration to our customers' lives.

Certifications

Cosentino has an unwavering commitment to satisfy the needs of customers and suppliers with respect for the environment and through responsible resource management, guaranteeing a commitment to innovation and continuous improvement of our processes, products, and services on a global scale.

Cosentino Sustainability

At Cosentino, we approach sustainability as a collective commitment that stems from the individual involvement of those that are a part of Cosentino.

Our continuous improvement efforts involve constant analysis of our entire value chain - from the acquisition of raw materials to the delivery of the final product to consumers.

We are firmly aligned with the United Nations' 2030 Agenda. As a global leader in the manufacturing and distribution of innovative surfaces from our headquarters in Almeria, Spain, we are committed to driving the path towards local and global sustainability.

→ Olive trees in the Cosentino industrial park

→ LED lighting throughout the Cosentino industrial park.

→ Photovoltaic installations at Cosentino

Energy

Energy efficiency and the use of renewable energy sources are the two core elements of our strategy to minimize the impact of our activities.

100% of our energy consumption comes from renewable energy sources, and we aspire to reach 30% energy self-consumption in the coming years.

On the other hand, the constant improvement of our processes and machinery allows us to reach a high level of energy efficiency, which translates into an 8% decrease of our electrical consumption in our production processes.

Water

Since our inception, we have valued the importance and understood the challenges of proper water management.

It has motivated us to implement a sustainable use policy maximizing the efficient use of water resources in the different production processes.

We use cutting-edge technology to achieve 99% recycled water in all our processes in the Cosentino Industrial Park.

In addition, we use 100% of the surplus water to irrigate green areas.

Materials

We are committed to making the most of the materials we work with throughout the value chain.

In recent years we embarked on an ambitious R&D project called “Circularity” to reuse the materials from which our products are made.

Another action is the disruptive HybriQ+ technology that brings about the new generation of Silestone. HybriQ+ incorporates a minimum of 20% recycled materials and is manufactured with 100% renewable energy and 99% recycled water.

Carbon neutrality: Sustainable design

Cosentino Group is deeply committed to sustainable development in the company's growth strategy, prioritizing respect and protection of the environment.

We address aspects related to the efficient use of natural resources, proper waste management, atmospheric emissions, discharges

We calculate our carbon footprint

It is an external body that verifies the calculation and the results of the carbon footprint that is submitted to the Spanish Ministry for Ecological Transition and Demographic Challenge (MITECO, in Spanish), which is responsible for approving and registering our footprint, becoming part of the '**Spanish registry of carbon footprint, offsetting and carbon dioxide absorption projects**' of the Spanish Climate Change Office (OECC, in Spanish), whose results are made public as an exercise in transparency.

This calculation uses energy and/or fuel consumption data, as well as raw material consumption data collected from all **Group subsidiaries** (Centres, Workshops, Cities, HUBs, HQ, etc.) with a view to offset these emissions.

and other potential impacts in order to make sustainable use of natural resources and protect biodiversity and ecosystems.

At Cosentino we are strongly committed to the 2030 Agenda promoted by the United Nations and the Local Action Plan promoted by the Spanish Government.

As a demonstration of our commitment, we have managed to offset the 42,532 tons of CO₂ emissions resulting from one year of Dekton® production, thus obtaining

We reduce our impact

We are committed to energy efficiency, emissions reduction and sustainable mobility to minimize our impact.

- **Energy efficiency:** it is a priority for Cosentino to reduce energy consumption in the production process and in the general group activity, which is why we have managed to obtain 100% of the electricity we use from renewable sources.
- **Emission reduction:** 2.8 million euros have been invested in the implementation of an energy management and monitoring system for the heat systems, which allows heat from the Dekton® furnaces to be recovered and used in the dryers, thus reducing emissions.
- **Sustainable mobility:** we have recently joined the 'Plan Sumamos Salud + Economía' under which we have a Mobility Policy that helped us to avoid 230 TCO₂ in 2018.

the Zero Carbon Footprint label for the entire product life cycle in 2019 for all Dekton® products.

In addition, the Sunlit Days series by Silestone® is the brand's first collection to achieve the carbon neutral certification.

We offset our emissions

To achieve carbon neutrality in Dekton®, at Cosentino **we offset our emissions over the entire product life cycle** (scopes 1+2+3) by investing in GHG emission reduction projects.

For this purpose, we identify those projects that meet the requirements for responsible offsetting and that, in turn, have a strong social dimension that contribute to the achievement of the **Sustainable Development Goals of the UN's 2030 Agenda**.

The project selected to offset the 42,532 tons of CO₂ emissions, resulting from one year of Dekton® production, has a direct impact on sustainable development by **supporting the local economy, providing training and job opportunities**.

The Ultimate Mineral HybriQ Surface

An innovative generation of surfaces made entirely with renewable energy, 99% recycled water and a hybrid formulation composed of a high-performance blend of premium minerals, quartz, and recycled materials, such as glass. More beautiful. More innovative. More sustainable.

More innovation. Same performance

Commitment to innovation and sustainability leads Silestone® to exceptional performance and amazing color depth. With the same quality and warranty that has made us industry leaders.

More design possibilities

The new composition of premium minerals selected worldwide for each design allows for a greater depth of Silestone® colors, textures and shades in order to create unique and personalized spaces.

More sustainability

HybriQ+® uses a minimum of 20% recycled materials in its composition, such as glass, and its manufacturing process is powered entirely by renewable energy and recycled water.

Dekton®

by Cosentino®

DEKTON®
designed by **COSENTINO**

Innovation applied design.

Dekton® is a sophisticated blend of over 20 minerals extracted from nature. Its production process is the result of years of research, development, and innovation in the manufacturing of glass, state-of-the-art porcelain and quartz surfaces.

Electron microscopy makes it possible to appreciate the reduced porosity of the material, a consequence of the sintering and ultracompaction process exclusive to Dekton®. This reduced porosity and the absence of micro-defects causing stresses or weak points are the distinguishing features of Dekton®.

Sintered Particle Technology

Dekton® uses an exclusive SPT in its manufacturing, capable of sintering mineral particles, bonding them together and compacting their internal structure. This innovative technological process mimics and accelerates the processes that natural stone undergoes when exposed to high pressures and temperatures for millennia.

Dekton® emulates in a few hours what nature takes millennia to do, thanks to the exclusive SPT technology.

- The furnace has a length of 180 meters (196 yards).
- Temperatures reach approximately 1250°C (2300°F).
- Total processing time depends on the thickness of the slab (about 4 hours).

Safety in facades and cladding

In order to reinforce safety in ventilated facades and interior cladding, there is the possibility of adhering a safety mesh behind the Dekton® slab, specially developed to prevent falls due to breakage. It is a 300 g/m2 fiberglass mesh adhered to the material with epoxy resin. Safety is one of Cosentino's main concerns.

Dekton® features

Dekton® Product features

Dekton® has all the technical specifications required in a high resistance surface to materialize any interior and exterior residential design project.

Low water absorption

Dekton's® water absorption is negligible so it does not undergo any expansion movement due to it.

Highly resistant to ultraviolet (UV) light

Dekton® is highly resistant to UV light and will not fade or degrade over time in any kind of outdoor application.

Superior mechanical resistance

Dekton's® variety of thicknesses allow it to be used in applications where resistance to wind or impact are a project requirement.

Fireproof material

Dekton® can withstand high temperatures without burning, scorching or cracking. European Standard EN 13501 and ASTM E84 testing, classifies Dekton® as a noncombustible material.

Color durability

Dekton's® control of pigmentation and decoration in the manufacturing process provides better color consistency from one slab to another, resulting in a long lasting product that will not fade over time.

Scratch resistant

Dekton® is one of the most scratch resistant surfaces on the market today. It has a rating of seven (7/10) on the Mohs scale for mineral hardness.

Dimensional stability

Dekton® expansion is minimal so it can be installed with thin joints between panels. These joints will keep their width in all conditions.

Resistance to freezing and thawing

Dekton® resistance to durability tests in freezing and thawing situations and its application in various weather conditions prove its high performance.

Abrasion resistant

Dekton® is even more resistant to abrasion than granite and porcelain, making it the ideal surface for facades or high-traffic flooring in commercial applications.

Maximum fire and heat resistance

Dekton® has been successfully installed on facades in areas exposed to high temperatures.

Easy cleaning and low maintenance

Most graffiti can be removed from Dekton® with standard cleaning products. Maintenance costs are reduced.

Stain resistant

Dekton® is resistant to stains from a variety of sources so they can easily be removed without altering their finish.

Dekton® Slim

DEKTON® SLIM
designed by COSENTINO

High aesthetic value and performance
in vertical cladding and furnishings

Minimum Thickness of 4mm → Large Format & Performance

Dekton® Slim is the ultra-thin 4mm thickness in large format that offers unlimited design options and incredible ease of installation and transportation. Ideal for bathroom and kitchen floors and walls, as well as all types of furniture.

01 → Large format and minimum number of joints

Its large format of up to 126" x 56" covers large surfaces minimizing the number of joints and therefore, dirt.

02 → Easy Installation

Having such a light format, but with so many possibilities, simplifies everything. Its thin thickness allows for quick cutting and on-site adjustments with ceramic tile tools.

03 → Design without limits

Dekton® Slim is very easy to work with and can be cut to size. It adapts to all spaces.

04 → Maximum resistance to humidity

Dekton® Slim is the ideal ultra moisture and stain resistant coating for bathrooms. A high performance product that requires no more maintenance than a simple damp cloth.

Dekton® Formats

Adaptable and
versatile.
In any space.

Dekton® offers a variety of standard sizes, custom sizes and thicknesses to meet the functional and creative needs of the designer in any interior or exterior project, no matter how complex.

Large format

Optimma Format → 100" x 39"
Large format Slab → 126" x 56"

Other formats

→ 56" x 56"
→ 56" x 28"
→ 28" x 28"

Thicknesses

→ 0.4 cm
→ 0.8 cm
→ 1.2 cm
→ 2 cm
→ 3cm

Dekton® textures

Dekton® comes in different textures so that the only limit is the imagination: from the ultra-glossy finish, to matte or velvet textured options.

Different Sensations.
Richness of Shades.

X-Gloss

A luminous and dazzling finish achieved by mechanical polishing, without the need for enamels or other materials.

Matte

The matte texture pursues a natural, shine-free appearance, ideal for achieving a harmonious and timeless finish. Most Dekton® products are manufactured with this finish.

Velvet

The materials chosen in Velvet create a feeling of warmth and comfort. This texture is perfect in classic colors with veins.

Matte or Textured Velvet

Matte or Textured Velvet textures combine the warmth of velvet with the roughness of a textured, imperfect material. It is ideal for emulating the finish of natural stone.

Optimma

New optimized Dekton® format.

The ultimate interior cladding solution.

The Dekton® slab has been optimized with its most common applications in mind to create a new format with improved cost, design, installation and handling. Introducing our first Optimma family format specifically for cladding:

Optimma format :
102" x 39" x 4mm

102" x 39" In 4 mm thickness

The slabs are created in 4mm thickness, which gives it a lightness that allows easy handling, and in case of need, it can be easily cut to adapt the product to all spaces.

Cost Efficiency

The sizes were optimized to the most common cladding standards, this allows us to avoid waste, which in turn reduces price.

Design with Purpose

The slab has been created to take advantage of its total height, which makes it much easier to cut it for cladding.

Easy to Install

The product is smaller and lighter, which makes it easier to use transport and handle. Cutting can be done with simple tools. The edges are already bevelled and the piece is always meshed.

Design Match

The design has been conceived to place the boards vertically to create a continuous design.

Silestone®

by Cosentino®

The Ultimate Mineral HybriQ Surface

Silestone® is a hybrid surface
of premium minerals, quartz,
and recycled materials
to dress interior spaces
with color and texture.

Silestone® advantages.

Silestone® is extremely durable in kitchens, bathrooms and other spaces exposed to constant activity and use. In addition, it offers an unlimited range of colors and textures.

Silestone® has many advantages, including minimal maintenance, high resistance to stains and scratches, and a low fluid absorption rate. This resistance to fluids and its minimal joints make Silestone® the ideal solution for places where liquids are present. Silestone® is resistant and allows for prolonged enjoyment to last a lifetime.

The properties of Silestone® are the result of constant years of innovation that guarantee maximum hygiene and safety.

Acid and Scratch Resistant

Silestone® has a high level of scratch and impact resistance, as well as resistance to external aggressors such as acids common in daily kitchen use.

Impact Resistant

The high impact resistance of Silestone® allows the handling of hard objects (pots, pans, trays, etc.) with total peace of mind.

Stain Resistance

Silestone® is a non-porous surface that is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, makeup and many other everyday products.

25 year
transferable
warranty

silestone®

Silestone® with HybriQ+ Technology®

HybriQ is a pioneering technology from Silestone®. An innovative generation of surfaces composed from a hybrid formulation. A new high-performance blend of premium minerals, quartz and recycled materials.

The result is a more beautiful and sustainable product. Silestone with HybriQ Technology is made through a manufacturing process completely fueled by renewable energy and recycled water. This new generation maintains the guaranteed quality and warranty of Silestone.

More innovation

Cosentino®'s commitment to offering the most innovative and sustainable surfaces leads Silestone® to exceptional performance and depth of surprising color. Silestone® is the combination of innovation and sustainability.

More sustainable

HybriQ+ uses a minimum of 20% recycled materials, 99% recycled water and 100% renewable energy.

This new generation of surfaces maintains the 25-year Silestone® warranty.

More design

The new mineral composition allows for greater depth of color, textures and Silestone® tones to create unique and personalized interior spaces.

Same benefits

Silestone® with HybriQ+ maintains all the characteristics of quality, durability and warranty that have made Silestone® the market reference in its category.

HYBRIQ⁺
TECHNOLOGY

Silestone® Formats

Infinite possibilities for
indoor applications.

Silestone® is available in slabs up to 128" x 63" and in 24" x 12", 24" x 16", 24" x 24", 16" x 16" and 12" x 12" tiles. They are marketed in thicknesses of 1.2, 2 and 3 cm. Additionally, different pieces can be combined to simulate thicker edges.

Large format

Jumbo Slab → 128" x 63"
Standard Slab → 120" x 55"

Jumbo Slabs

Cosentino® offers Silestone slabs in Jumbo format (128" x 63" max.). This format allows for the creation of large surfaces with minimal jointing, design versatility, and better hygiene. This way, the slabs' use is optimized and waste minimized.

Floor formats

- 24" x 12
- 24" x 16"
- 24" x 24
- 16" x 16"
- 12" x 12"

Thicknesses

- 1.2 cm
- 2 cm
- 3 cm
- Custom thicknesses adding different pieces

Silestone® textures

Surface sensory
perception.

In order to adapt to all styles, Silestone® offers different textures for any of its applications. Polished, Suede or Volcano are three possibilities that make your imagination soar and have the countertops, floors or walls with the texture you have always wanted.

Polished

Extreme shine, a smooth surface to the touch and a uniform, intense and consistent color.

Suede

Extra matte finish, offers a flat, non-rugged surface, which conveys a unique experience to the touch for its beauty and fineness.

Volcano

Rustic texture, rough to the touch, but soft at the same time, an attractive and pleasant to the touch surface

Mediterranean Color Shades

New Sunlit Days Collection

Sunlit Days. An immersive and sensory journey through light and color that takes us back to our roots and transports us to a more natural, more sustainable and more compassionate future.

Presenting the first Silestone® Carbon Neutral collection, a commitment to sustainability where we reduce and offset the emissions from the manufacturing process with reforestation projects. This environmental commitment translates into a collaborative program for the preservation of the seabed and our environment.

Sunlit Days is inspired by evocative Mediterranean tones, and a unique lifestyle.

A new breath. A new spirit. A new Silestone®.

Faro White

White is the color of the Mediterranean. The one that draws the waves on its shore. The one that reflects its light and evokes its warmth. White represents purity par excellence, and more than any other color, it transmits serenity. It is the color of simplicity, and yet, the most complex and versatile of all colors. Just like its texture, which is surprisingly silky to the touch, every time you lay your hands on it.

Faro White is inspired by the lighthouses that draw the way for ships, it will fill your space with light and sea, for people who love life.

Faro White is the sparkle that brings us closer to what really matters: our people.

Faro White pairs well with natural fibres and aged woods, raffia and metals with matte finishes.

It is a good match for decorative elements of pure and curved lines, giving rise to spaces stripped of ornamentation that convey calm and purity.

Cincel Grey

Some people say that gray is just gray. Those people will speak of wood as just that, wood. They will not speak of ebony, almost jet, nor of crimson mahogany. Because wood is not just wood, nor is gray just gray.

Cincel Gray is a fine-grained gray, silky and full of nuances. A gray that when bathed in light unfolds its melody of contrasts between matte, sheen and reminiscent of other colors. It is a gray for those who know how to look and feel.

Its touch, like the rest of the colors in the series, is a sensory experience even for the hands most accustomed to delighting in the textures of each wood.

Cincel Grey is a neutral, adaptable gray that balances easily between warm and cool tones. Therefore it complements polished metals and rustic finishes and combines very well with accents of earthy colors, and resistant fibres such as plush, felt and denim.

It is a perfect color for everyday spaces paired with textiles and elements that pay tribute to minimalism.

Cala Blue

The first time you see the sea and its breeze embraces you. The feeling of floating in the immensity. Away from worries, letting the sun and water bathe your skin. Savor the salt that envelops your body, the sound of the waves breaking on the shore, see the infinite horizon. A game for the five senses. A unique touch that caresses the skin just like the sea.

That is Cala Blue. A deep, modern blue that simulates the balance between the depth and the surface of the sea when interacting with light. A mature color that vibrates with the rest of the elements that complement the space it inhabits. Let yourself be rocked by the Mediterranean.

The versatility of Cala Blue allows combinations with dark woods such as walnut and ash, as well as with dark metals to give a more classic look. Paired with nude colors and woods, it is perfect for rustic spaces.

Posidonia Green

Under the Mediterranean, time stands still. Everything is slowness and harmony. The posidonia meadows sway, dancing a hypnotizing dance of incredible greens. Greens that captivate the eye and that both literally and metaphorically, fill the seabed with life.

This is Posidonia Green. A green that asks for colors around it and that transports this beauty so far inaccessible to our spaces. A green that infuses vitality, joy and nature on all four sides. A green that at every moment breathes a different melody of brightness and tones, just like the marine treasure that gives it its name.

Posidonia Green is the perfect match for woods such as bamboo, soft textures, fibres such as cotton or Lyocell, and twill-like structures which help to create these spaces.

Marbling, rustic, natural elements and monochromatic geometries are perfect options to complement this luminous green.

Arcilla Red

There is a land that breathes fire, that seems to flow blood, a land that is pure life. A land of clay, of an infinite red that displays intoxicating tones and fills you with warmth, life and joy.

This is Arcilla Red. A red that makes you fall in love. An earthy red that tastes like wine and smells like petrichor. A red that brings the purest essence of our origins to our home. A burst of color, an accent, a beating heart. A red that turns the kitchen into a living space that longs to be lived in. A color that can be tasted with all five senses. A unique texture that can be enjoyed with both touch and sight. Arcilla Red comes to endow any space with this passion, this closeness to the earth, with pure life.

Arcilla Red pairs nicely with reddish woods such as oak or cedar as well as grayer woods like anthracite. Gun metal metals and handmade fabrics are perfect companions to create rustic and bohemian spaces.

Beauty Beyond Natural

New Ethereal Collection

Introducing the Ethereal collection. An unparalleled leap in design, sustainability and innovation developed with HybriQ+® technology, which takes the concept of marblestyle colors to a new dimension.

Ethereal, an evolution of our popular Eternal Collection, interprets the dreamlike beauty of the sky by drawing fine veins of deep hues on white canvases. The result: the most cutting-edge and avant-garde Silestone® series, a redefinition of veining that creates a new category in terms of performance and design.

Ethereal Dusk

Ethereal Dusk is that unique sunrise, that unparalleled feeling of being the first person to see the light of day, where peace is seen on the horizon in the last moments of darkness. The bluish tone of its veining gives it a modern touch that, together with its avant-garde linear pattern, makes Ethereal Dusk one of the most urban and contemporary designs in the collection.

Reddish wood and metals reminiscent of rust, such as gunmetal, or old-cut metals, such as bronze and copper, also go well with this color.

Ethereal Haze

Ethereal Haze is a soft color with a strong character, in which the interplay of patterns merges with the deep, neutral background color. Ethereal Haze is a sea of clouds that offers the sensation of being on the edge of immensity. A veil that separates us from the moment in which we live to transport us to imaginary worlds through the wind that moves the clouds over the mountains, creating the illusion of a calm and fluffy sea.

Its combination of cool and warm makes it perfect for spaces with a total wood or cement look. It also works well with coppery metals, gold colors, limestone and more rustic fabrics.

Ethereal Noctis

Ethereal Noctis draws on the designs of the Eternal collection with a new, renewed and conservative approach. Black features add contrast and elegance to the color range. The gray details and the short-veined background provide depth. Inspired by the darkness after sunset, Ethereal Noctis hides and shelters us in the depths of the night, making us feel life with a strange halo of unreality.

This color elevates the sophistication of the interior design, in combination with brass lamps, stained wood flooring and white and gray furniture for a more industrial look. A versatile color suitable for residential use or for large projects.

Ethereal Glow

Our renewed version of a golden classic like Calacatta Gold with a bolder, more modern structure. The elegant gold and gray veining of Ethereal Glow blends into a tinged white foundation to add depth to the design. The sky gives us a spectacular display of yellow, red, orange, gray... and the clouds lose their shyness and appear blazing and confident.

Ethereal Glow is inspired by the sunset. A rhapsody of colors in the sky with an igneous glow from which you cannot look away.

Sensa

by Cosentino®

Protected Natural Stone

Sensa by Cosentino® is premium maintenance-free natural stone brought to you by Cosentino, a world leader in the natural stone industry.

Sensa by Cosentino® is treated with a revolutionary stain protection treatment called SenGuard, and comes with a 15-year warranty.

SENSA
15
YEARS
WARRANTY

SENSA
by COSENTINO®

Applications

Sensa kitchen countertops.
Natural, stain-resistant beauty.

Enjoy the design, hardness and resistance of natural stone without fear of stains. Sensa by Cosentino® quartzites and granites feature a revolutionary stain-resistant treatment that protects them for the life cycle of your countertops.

Sensa by Cosentino® Treatment

The long-lasting, chemically-integrating technology allows the material to breathe. This technology enhances its powerful properties.

The process alters the surface tension of the stone causing the material itself to prevent liquids such as water, coffee or oil from penetrating

Textures

Unique patterns for irreplicable surfaces.

The colors and textures of Sensa by Cosentino® have the patient and whimsical design of nature. Each of the seven available shades has a texture that produces different effects and sensations: suede, polished or caresse.

Natural Stone

by Cosentino®

From the Earth

We have selected the most premium natural stones from the best producer of all time: Earth.

Advantages Natural Stone®

Natural Stone is the Cosentino's collection made up of natural stones chosen through an exhaustive selection process. This collection of natural stones is inspired by the origins of the Cosentino Group, as a brand that has worked with noble materials such as marble, granite, limestones and travertines. Its extraordinary resistance and durability, together with whimsical and unrepeatable designs, make Natural Stone a safe bet for the professional.

- More than 100 materials in the portfolio.
- Technical sheets and Declaration of Performance upon request.
- Stocks locally in our own Centers.

Living rooms

The living room is transformed into a personal and timeless space with Cosentino surfaces; an expression of sophistication and functionality.

Live your space

Rediscover your home's living space

An integrated solution with maximum versatility and functionality.

Endless personalization possibilities.

Limitless customization

Designing a living room with high aesthetic value requires versatile surfaces in a variety of colors, textures, and unique chromatic pantones, such as Dekton and Silestone, which will cover floors, furnitures, cladding, and more, to create an integrated and differential interior design experience.

Perfect for high-traffic areas

Dekton® is an innovative surface with a high level of resistance, capable of withstanding high temperatures, ultraviolet rays and any scratches. It remains unalterable to wear and abrasion, as a result of the high daily traffic in spaces such as living rooms.

Easy installation

Dekton® is offered in a Slim format which is light, easy to cut, and adaptable to every space. Its thin thickness of 4mm allows adjustments to be made during installation, using tools for ceramic tiles.

Comprehensive solutions

The same material for flooring, cladding, and furniture created visual continuity and high aesthetic impact, unifying spaces and increasing their functionality.

New Dekton® Optimma Format

Dekton® has been optimized for interior cladding. The Optimma format (2600x1000x4 mm) allows for cost efficiencies, more design possibilities and easy installation and manipulation. The results: impactful cladding and integrated spaces.

Large format, minimal joints

Dekton® Slim's large format up to 3200 x 1440 mm and thickness of 4 mm allows you to cover large surfaces creating a continuous and homogeneous aesthetic for cladding and furniture. This size reduces the number of joints, easing cleaning and maintenance.

Cosentino Bathrooms

Cosentino® helps you
to rediscover your
bathroom space through a
unique and integrated
design concept.

Bathroom Spaces

Reimagine the most personal space in the home. Create a unique experience in which the most beautiful and functional Cosentino® surfaces create unique, warm, and exclusive spaces.

From wall and floor claddings in different yet perfectly balanced formats, colors and textures, to attractive vanities and shower trays, carefully designed with great attention to detail and simplicity.

Solutions of great aesthetic and functional value to suit every requirement and style of bathroom, which redefine the way in which we experience such a personal space and feeling of well-being.

Large format

Large format, minimal joints. Tailor-made floors and wall cladding.

Bathrooms are exposed to constant activity. Using a high-quality surface for floors and cladding reduces joints and guarantees hygiene and cleanliness. The strategically placed slabs in XXL make the room look bigger, creating the sensation of a larger bathroom.

Shower Trays

Shower trays with Dekton® Grip+ and Silestone®: exclusive and integrated designs in the bathroom with limitless customization possibilities.

Cosentino® offers an extensive collection of shower trays in the material the architect or designer chooses and adaptable to any space. It is an interesting alternative to the traditional shower that simplifies installation and assembly.

Optimma Format

Dekton® Optimma Format. Optimized for interior bathroom cladding: taking full advantage of the space, easy installation, and design continuity in a vertical format.

The Optimma slab format is available in 102" x 39" and 0.4 cm thicknesses, able to meet any vertical cladding need creating a continuous design, taking advantage of the full height with easy installation and minimum waste.

Sinks

Sinks and vanity tops with great versatility that adapt to any space. Sophisticated designs with maximum beauty and durability.

Silestone® sinks are built with a unique and innovative design able to live up to the most demanding creative proposals. From sinks that integrate into the vanity top, to overmount options, double bowls...everything is possible with tailor-made fabrication.

Optimma Format

Dekton® Optimma Format. Optimized for interior bathroom cladding: taking full advantage of the space, easy installation, and design continuity in a vertical format.

The Optimma slab format is available in 102" x 39" and 0.4 cm thicknesses, able to meet any vertical cladding need creating a continuous design, taking advantage of the full height with easy installation and minimum waste.

Total Integration

Total aesthetic integration and visual continuity. The same material for your entire bathroom: floor, cladding, shower tray, and sink.

A single surface applied to every component of the bathroom allows for complete esthetic homogeneity, creating harmony, balance, and amplitude.

Colors and textures

New collections of innovative, on-trend colors and textures, to create bathroom spaces full of originality and impact.

Innovative Silestone® and Dekton® surfaces possess a wide variety of solid and veined colors, unique chromatic pantones, and sensory textures to rediscover bathroom spaces.

Cosentino Exterior Spaces

Beautifully continuous
and durable
outdoor spaces.

Redesign your
outdoor spaces to
include porches and
terraces that blend
in with your home.

Exterior Spaces

Customization without limits

Open spaces with freedom for inspiring, designing with a unique purpose: personalizing your outdoors spaces.

Easy installation

Dekton® is very lightweight, easy-to-cut and adaptable format.

High transit resistance

It remains unalterable faced with daily erosion and abrasion in outdoors spaces, used in terraces, stairs and pool surroundings.

Dekton® Outdoor Countertops

Dekton® outdoor countertops are resistant and durable. Innovative surfaces turn into functional and beautiful countertops.

Cosentino Kitchens

Reinventing the
kitchen to make it
the heart of the home.

Kitchen Spaces

It's been a long time since the kitchen was a forgotten room in the darkest part of the house. The kitchen is now a key space that can integrate with the living-dining room and share the same design.

Integration within the space

The kitchen as a living space connected to the rest of the house. Total integration of the worktop with the living room cladding or floor.

Kitchen Countertop and Island

Thousands of households all over the world have trusted Cosentino to provide them with a kitchen that is not only functional and beautiful, but also plays a key role in the daily lives of their families. We offer a wide range of colors and textures, so you're sure to find your perfect countertop.

Kitchen Flooring and Cladding

In this so-called “reconversion” process, the island plays a major role, as it serves as a connecting element between the two environments as well as a meeting place in the home. In this project, the interior designer built the entire design around the island.

Island in a classic material.

Although this kitchen has a distinctly modern look, the designer has opted for a classic material for the countertop: Silestone® Calacatta Gold in a polished finish. The use of a 5 cm strip and the diagonal cut on the front side bring modernity and style to a material reminiscent of ancient marble.

→ Kitchen countertop
Silestone® Calacatta Gold, Polished finish

Silestone® Integrity Sinks

Full range
of products.

Without joints, cracks, or limits. Integrity wants to unite your kitchen with surfaces don't have an ending or beginning. Integrity brings a sense of unity and perfect integration with the rest of the elements on your countertop. A single piece available in a range of Silestone® colors, so your kitchen is endless.

Available in
a wide variety
of colors.

Check available colors

Furniture

Surfaces integrated with unique
and timeless furniture design.

**Dekton®,
The skin of the furniture**

It's on-trend to use the same cladding on the kitchen or bathroom countertop to clad drawers and wardrobes. This allows you to achieve continuous and clean surfaces where joints disappear, creating a monolithic effect.

This decor trend is only possible with the technological evolution of materials. 8 mm and 12 mm thicknesses are ideal for tables and coffee tables. Dekton Slim 4mm thickness allows kitchen and bathroom furniture cladding, and also answer the creative restlessness of the designer: table tops for the interior and exterior completely personalized and exclusive.

Furniture

Unprecedented
durability and design.

Cosentino® surfaces
redefine furniture thanks
to their versatility,
durability, and beauty.

→ Kitchen furniture cladding, Dekton® Slim Opera

Dekton® Slim, 4 mm thickness makes it an incredibly easy material to work with. Its light weight and properties make it the ideal solution to clad all types of furniture and adapt to any aesthetic proposal: in white and gold, in black and chrome...

Dekton® Slim has all the advantages and properties of Dekton, high resistance to scratches and stains.

Ideal for cladding closet doors and kitchens

Dekton® Slim Zenith and Dekton® Slim Opera were the two tones chosen to hide these drawers under the stairs or on the front of the kitchen. The result is a camouflaged surface of this practical storage solution, without compromising the aesthetic of the space.

→ Kitchen furniture cladding, Dekton® Slim Kreta

Cabinets integrated into the island

Dekton® Slim is the perfect solution to clad drawers in the kitchen island, achieving a monolithic effect.

For this industrial project, the designer chose Dekton Trilium: a finish inspired by volcanic rock with a touch of oxidation, which adds great character to the space.

Once again, Slim's 4 mm thickness allows the creation of an island totally integrated with drawers.

→ Kitchen furniture cladding, Dekton® Slim Trilium

→ Table top, Dekton® Laos

→ Table top, Dekton® Laos

→ Table top, Dekton® Trilium

→ Table top, Silestone® Eternal Statuario

Ideal for work spaces

The properties of Dekton® and Silestone® make these materials the perfect choice for work spaces. With their endless possibilities in terms of finishes and designs, they add a deco touch to these spaces and create attractive and functional tables suitable to work from home.
