K-5 Job of the Week Program

Ignite your students' curiosity and broaden their career horizons with **K-5 Job of the Week** from K12 Career Focus.

This innovative program exposes your students to an impressive array of 174 unique careers across all 6 career zones by the time they reach the end of 5th grade. Each week, you'll captivate your students' interest with vibrant Job of the Week graphics, meticulously scaffolded according to grade level.

Imagine the excitement in the classroom as students guess the nature of the job from the first slide, which promotes diversity by showcasing individuals of various races and genders performing the job. The second slide delves into the tasks associated with the job, using vocabulary that is grade-level appropriate. Most jobs also feature a third slide that provides a link to an informative online video about the job, an online book on Epic books, and/or the title of a physical book available at local libraries.

- Pre-made career exploration presentation for teachers
- 10-20 minutes a week
- Jobs scaffolded by grade level
- Students exposed to 174 different jobs by the end of 5th grade
- One-time affordable fee
- Use it year after year!
- Easy and fun for teachers!

What Teachers are saying: Used in many districts throughout Michigan, teachers who have used the program have been amazed at the great class discussions that come about through "Job of the Week"! They have also been surprised at the number of jobs students did not know existed!

Empower your students with the knowledge of diverse career paths, fuel their dreams for the future, and invest in the Job of the Week program for your district today! This cost-effective program comes with a one-time fee and a .pdf deliverable, the cost of which is determined by the number of elementary schools in your district.
