ENA STUDIO

1 BEDROOM
1 BATHROOM
KITCHEN
LAUNDURY
DECK

The structure is designed to be a modern, minimalist building that blends with the natural environment. It features a flat roof and large glass windows that provide a clear view of the surrounding landscape. The building is elevated on stilts, allowing for a seamless transition between the interior and the outdoor space. The use of wood and stone materials adds a touch of warmth and texture to the design.
