

Recommendations for Self-Isolation in a Non-hospital Setting

Stay Home and don't allow visitors

Keep a safe distance from others

Cover your mouth and nose with a tissue or your sleeve (not your hands) when coughing or sneezing

Wash your hands Frequently with soap and water for at least 20 seconds

wear a face mask when surrounded by people.

Don't share the same house utensils

Use a separate bedroom and bathroom if possible

Take your temperature at least 2 times a day

Stay in a single room and be separated from others

Place used facemasks and other contaminated items in a separate container before disposing them

In case of health deterioration and emergencies call the red cross and notify them you are infected with coronavirus

If you need to seek medical care for other reasons, such as dialysis, call ahead your doctor and follow recommendations
