

Drainage concerns?

EXCESSIVE MUD OR WET AREAS?

WATER DAMAGE?

EROSION OR SOIL WASHED AWAY?

Be ready for the next storm season.
Sleep easier when El Niño is crying.

Install watershed friendly drainage systems!

- ✓ Assessments – treat the causes, not the symptoms
- ✓ Self-sustaining & resilient solutions
- ✓ Facilities, pastures, gardens, lawns & fields
- ✓ Based on 50 years of soil conservation science
- ✓ Don't be fooled by French drains & sump pumps
- ✓ Maintenance, revegetation & wetland options
- ✓ Start implementing your stormwater plan – recharge groundwater, restore habitat and save \$

TURN A PROBLEM AREA INTO AN ASSET

Olivet Ranch – wool, lamb & ecological services

OLIVET RANCH

A family farm where planting hope is as important as hard work

WOOL

Our flock is a unique mix of color, breeds and personalities. Olivet Wool is the product of slowly selecting genetic variations with excellent quality texture, color and crimp. We offer:

- ☞ *Fleeces* ranging from white, silver, tan, brown and black.
- ☞ *Wool Throws* are rugged, cozy, gorgeous and natural pelts (photo).
- ☞ *Locks* are the finest curls and dreads for numerous craft projects and creations.

LAMB

We continue to offer delicious, nutritious and well-loved lambs using our 30 years of experience to give optimal care to each. We have done taste tests and incorporate the latest research. As a result, Olivet Lamb is:

- ☞ Large with superior tenderness, fat cover and overall flavor.
- ☞ Free of antibiotics, rotational grazing and stress-free harvest at home.
- ☞ Pasture raised with an ideal combination of grass/clover, hay and space to run that guarantees diversity of omega-3 and -6 fatty acids.

ECOLOGICAL SERVICES

Implementing environmental solutions that balance a working landscape:

- ☞ *Landscape Systems* - Drainage, swales, rain gardens and wetland enhancement.
- ☞ *Farm/ Ranch Planning* - Prioritize projects that improve water quality and habitat while balancing drainage and longterm productivity.
- ☞ *Biological Assessments* - Project site evaluations.
- ☞ *Monitoring* - Compliance, 3rd party verification, etc.
- ☞ *Urban Shepherd* - Science, mindfulness, ecotherapy.
- ☞ *Fire Recovery* - Fuels plan, biofilters, permaculture.
- ☞ *Ag Tours* - Science-based stories of local watershed restoration and our agro-ecological history.
