## Winnipeg BRAG EMF-Radiation Monitoring Project

On March 24, 2021, Dr. Maple-Klee and an email requesting volunteers to participate in the "Global EMF Monitoring" Project first met online by April, 2021. About 1,500 individuals from 11 countries responded to the following their local and surrounding areas.

The leading representatives of Manitobans for Safe Technology and SG Winnipeg first met, and in ready to take on the project and in May 2021, EMF-Rad 2.0em measurements of Winnipeg began being recorded in accordance with the Global EMF Monitoring Project.

Over the course of about 2 months leading up to the 6th global 5G protest Day on June 19th, 2021, data was collected from every ward in Winnipeg. This was a representative of some of the stationary and site areas found. 3000 readings of the Winnipeg awareness. The April and May were analyzed and included into the Global EMF Monitoring Project, which can be found at GlobalEMF.net

### Prairie Grove 5G Winnipeg Awareness Mission Statement

We are a non-profit, non-partisan group of Winnipeg citizens who are education and community leaders in the value and of wireless and other emerging technologies.

We advocate for the inclusion of wireless from studies done to the possibility of including that include various health effects from exposure to wireless and other emerging technologies.

We advocate for solutions to bring health and mobility rights to the residents of Winnipeg by ensuring we have effective and affordable wireless infrastructure.

We advocate for the inclusion of electromagnetic spectrum and electromagnetic radiation as a source of harmful pollution into the Canada Environmental Protection Act.

We advocate for the legal protection of safe radiation levels (SAR) and the biologically sensitive areas of the country to be protected from 5G.

May Our Advocacy Bring Health, Wealth and Electromagnetic Empowerment to All Earth's Beings.

Sincerely, The Dedicated Leadership and SG Winnipeg Awareness Inc.
