At :18 left in the 2nd half #22 [TEAM 1 #22] ([TEAM 1]) committed a reckless tripping foul on an opponent after the opponent had kicked the ball. She was shown a yellow card and then a red for receiving a 2nd yellow card. She left the field.

Boys Varsity

In the first half after [TEAM 1] scored a goal, the [TEAM 2] head coach was upset because he claimed the ball could not have crossed the line. The [TEAM 2] players had tried to say it had not, and I confirmed with the assistant referee the ball had, in fact, crossed the goal line. The coach was dissenting from approximately the midfield point on the touch line (well outside any technical area). I crossed the field and told him that I would give a yellow here and please do not make it a red. I told him I had confirmed with the AR it was a goal. He attempted to argue that the AR had not run up the line so it must not have been a goal. I told him regardless of the signal, the AR said the ball passed the goal line. I then booked him and returned to start the game.
