

## *UltraMito Restore*

Get back what you had before and more!

*Restore* is a second-generation product in the *UltraMito* line of mitochondria-related products. It was created by scientist and formulator, Dr. Bevan Elliott. Informed by his background in nanotechnology, physics and emerging science, he created a new, proprietary technology designed to potentiate the mitochondria.

Mitochondria are the components in your cells that produce energy and are involved in, virtually, every significant cellular function in the body.

Dr. Elliott's research indicates that what affects health the most is the health of the mitochondria. You, literally, can't be your healthiest unless your mitochondria are at their best. If the health of the mitochondria can be improved and you have more mitochondria, that are bigger and more energetic, your overall health can be improved.

### **About *Restore***

*Restore* is an adaptogenic formulation designed to promote:

- Stimulant-free, natural energy from the mitochondria that can outlast your longest day
- Enhanced brain ability, with the vision, clarity, and focus to meet your every challenge
- Mood enhancement and chronic stress reduction
- Deeper, more restorative sleep
- Cellular detoxification and repair
- Immune system enhancement with anti-parasitic and anti-pathogenic support
- Body-wide support for major organ systems
- Enhanced ability for the body to manage itself and maintain homeostasis

To accomplish these objectives, natural ingredients are preferred because they tend to be multi-functional and have fewer side effects.

*Restore* uses two ancient super foods: olive oil, along with olive leaf, and black seed oil. Both abound with health benefits and have been used successfully as natural remedies for thousands of years. To those, additional antioxidants, adaptogens, and essential oils are added that have specific functionality and documented health benefits.

These two super foods, along with the additional ingredients, are amplified by a delivery system called XDS (eXponential Delivery System). This proprietary nutrient delivery system was developed by Dr. Elliott, to target every cell in the body to deliver nutrition deep into cells and into mitochondria.

Why is this important? Because, to have the very best results, great natural ingredients alone are not good enough. The natural bioactive ingredients, typically, contained in nutritional supplements can have poor deliverability and don't easily get to where they need to go, to do the most good.

XDS formulations rectify this problem in a powerful way. It, typically, uses only a fraction of the normal daily dose, for a given bioactive ingredient, compared to how much of the same ingredient is commonly used in other nutritional supplement formulations. Yet XDS is so effective, that much greater benefits can result. Nutrients tend to work faster and with much greater results for more people.

## **Super Food Benefits**

What makes the olive components and black seed oil true super foods are their numerous and diverse benefits.

Documented Benefits of Olive oil along with olive leaf and Black Seed Oil include:

- Excessive fatigue relief
- Anti-cancer benefits
- Healthy blood sugar support
- Healthy blood pressure support
- Heart and cardiovascular support
- General major organ support
- Weight loss
- Healthy hair and youthful skin
- Anti-parasitic, anti-pathogenic (viruses, bad bacteria, fungus, mold, etc.) support
- Cholesterol improvement
- Immune response support (arthritis, fibromyalgia, etc.)

### **The benefits of *Restore* can be especially important to:**

- Those experiencing an extreme energy deficit perhaps due to long hours, lack of sleep, side effects from medication, aging or generally being run down
- Athletes striving for extreme performance
- Those whose occupations require organization, sharp focus, quick thinking, creativity and problem-solving ability
- Working moms and dads who want to have the mental and physical energy, at the end of the day, to enjoy some "me time" indulgences
- Anyone who just wants to be as healthy as they can, possibly, be with less emotional stress and physical discomfort.

*Restore* was made for you! Try *Restore* today and launch a rescue mission for your cells powered by your mitochondria.

### **How do I take *Restore*?**

The recommended dose of *Restore* is 4 mL or 4/5 teaspoon. This is a little less than a full teaspoon per day. A loading dose of double or more for the first week is ok. How you take *Restore* is a matter of personal preference. It can be taken morning or evening in a single dose or split up, with or without food. Some people have reported having very vivid dreams, in some cases, for the first time since they were very young. If you don't want to dream, consider taking *restore* earlier in the day or first thing in the morning.

### **What should I expect and how quickly does it work?**

Some, especially if they were already on XDS products, report same-day results. Most people report benefits in days or weeks. In some instances, a need to rest more, or various other signs that the body is beginning to detoxify may be experienced.

Others may take a month or more, especially depending upon how much detoxification needs to be done. Those with complex health situations, including ones involving medications and other supplements being taken, should be patient. The conventional wisdom is to allow at least three months to give any nutraceutical a fair test.
