

CA-27 Action Team Plans
Marley Powell
October 22nd Meeting

Today we can more confidently say that there is only one democrat running in the district at this point: his name is George Whitesides. The CADEM endorsement vote was today and George received 95% of the vote. We still feel that anti Garcia targeting is necessary to counter the Republican talking points but we are able to more comfortably speak to voters about who they should expect to be on the ballot.

The recent Day of Action turned out Schiff and a hundred volunteers to get excited about the district. It's consolidating and coming together to be a good year for the democrats in the district.

Dates: Nov 18 - big day of canvassing!

We have to hit the doors! I will be there on November 18th and expect to see you there as well

Youth to booth

Is a special project where we educate teens and young adults directly in High Schools in the AV. Spearheaded as a project by Tiffany Countryman and Indivisible AV, direct outreach is launching in January. They are already doing ongoing voter registration in the AV and are one of the groups in the AV to make real inroads with reaching and connecting with young voters. Reaching them now makes the chance that they turn out in November even higher.

We have three Making Waves members that are helping to draft the curriculum to present to HS students. For presentations we'll partner with local young people to present to their peers.

Sign up in the poll to get on our list. You will be hearing from us about CA-27 actions-starting monthly emails as we gear into the 2024 cycle
