There's a shooting in Texas ice facility, you know Bombing Iran is going on the economy is collapsing. There's so much that's constantly going on We don't really have time to get into some of the stuff that I think is important, you know local politics The things that are shaping north Idaho and Idaho More broadly and what's going on here in Idaho is going on all over America So I think it's kind of important to go over some of these things put it in context delve a little bit deeper than we normally Have a chance to do on the podcast

[01:00] So we're going to do that tonight. We're gonna be talking a little bit about some of the people in Idaho that are Undermining American sovereignty frankly, they're selling our country out and they're doing it for Israel They're doing it for our greatest ally And so we're gonna be talking Christian Zionism. We're gonna be naming some names we're gonna be talking about some churches and Some networks that I think are extremely dangerous that people not only in Idaho But anyone who listens to this podcast across the nation across the world I think people need to know what is going on and the lengths to which these radical crazed Zionist bloodthirsty people the lengths that they are willing to go to bring about their

[02:00] Apocalyptic doomsday rapture scenario So we're gonna get into some of that First I want to remind you all that you can visit our website the backlash net Make sure that you're subscribed across all of our platforms. We'll be back on Mondays and Wednesdays With the content that you've already come to know and love so no big deal But tonight I wanted to give a little bit of background about me who I am

[03:00] where I come from why this podcast was started and Kind of unmasking a little bit of what we've been dealing with here in North Idaho, so For those of you that are unaware, uh, I've been a right-wing conservative America first political activist for a very long time Some of you may remember me from the culture wars tour with uh The late great Charlie Kirk, uh, you know, I was I was opposing him Uh, he was on campus with a homosexual named rob smith. They were promoting degeneracy. So I got kind of E famous or whatever for a particular question that I asked about homosexuality and the culture war But on top of that, you know, I've worked for e Michael jones catholic family news Fidelity press culture wars magazine the fadima center A lot of a lot of work in the media space. Uh, and in 2021

[04:00] this was the height of You know critical race theory being a really big deal people were at home looking at what their kids were studying for the first time and we're realizing the The amount of anti-white propaganda that is going on in the schools and so I felt

Motivated to do something about it, you know, my wife and I had just moved here to Idaho in 2020 And in 2021 it was clear that they were teaching this crap in our schools So I decided to run I've got an article here Uh from the Jewish daily forward, which I think is interesting and it kind of plays into where we're going to be going with this because Why would me running for a school board position in north Idaho Become international news

[05:00] With a news outlet like the forward So I got an endorsement from the GOP As you can see here In spite of the fact that I had a history of antisemitic and homophobic tweets And this kind of kicked off A series of events here in Idaho That's going to bring us to our our main topic So I ran for school board I lost by just a hair And I lost because A certain pastor from a certain church Denounced me from the pulpit Now The pastor's name is Paul Van Noy and he is the head pastor of Candlelight Christian Church. This is him and What's interesting well, there's a lot of things interesting about it first of all

[06:00] It is not really legal for churches to be giving out endorsements or opposing candidates They're not allowed to do that as a tax exempt organization But this church Candlelight Christian Church Has a long history of being extremely involved in politics Uh Here's an example This is from the spokesman review in 2017 Amid national debate over church's role in politics labrador touts pastors endorsement And so this this comes from the spokesman review And The pastor endorsed Roe labrador and of course in the article they talk about the I guidelines and how they're not supposed to They're not supposed to endorse But uh This is what's been going on and so when it came time for me to run for office This is what pastor Paul Van Noy had to say about me before ever meeting me never talked to me on the phone

[07:00] Never in the same room with the guy And this is what he said And so we've got issues and we have a lot of issues today and this is local politics So we're talking about our county and so some of our local cities I have heard as you have heard if you're paying attention A lot of criticism for the Kootenai county republican central committee That criticism is coming from the left Not just from liberals from the left and there's a difference And the cord lane press is not helping us with this which is very sad very sad to me They've taken a lot of hits that they don't deserve and I think that they've done a very good job putting together a Voter guide and so we have that available for you in the lobby today I will make one comment about this. Um, I am not endorsing David

[08:00] Riley for post-folks school district zone number five He does have good Positions on race theory critical race theory and on mandates, but he is antisemitic He despises my dear friend Charlie Kirk He is unrepentant and I will not endorse him I think it's a mistake that the Kootenai county republican central committee endorsed him And I would not want you to endorse him either And so this is a man that is opposing What god stands for in this case the nation and people of Israel He is disparaging of Israel and the jews and he speaks out Outwardly about that and so I want to discourage Your participation with him Do you see how tricky that was I want to discourage your participation with him

[09:00] So it's not an endorsement. It's very gray area even though You and I know that this is A clever little way to get around the IRS right So this was my introduction to Paul Van Noy And it has only gone downhill from there this guy Is a cult leader frankly, uh, his his the parishioners the people that go to his church are fanatic crazed in their support For the state

of Israel. This is some of them standing in front of their church As you can see waving these goofy flags That are blended between America and Israel the the kingdom of Jerusalem Okay, you know

[10:00] We stand with Israel now remember that video that I played for you was in 2021 that was before October 7th that was before Everything that we've been going through with Iran and the war in Gaza the genocide the 19 000 dead children That have been murdered by the Israelis And of course, that's what these people support We've got a another video clip here Just so you can get a taste of the kind of person That Paul Van Noy is And I'll let his his own words do the speaking here And I saw with my eyes what is actually going on over there not what we're reading about or hearing about in the media right And I think and this for the record. I know that we've made this degree here and David, please You and I can disagree about a lot of things agreeably. I think um When I see What Israel is doing I think they have every reason to do it

[11:00] And I would do more if it were me I would do more Because I would be telling them give us back our hostages or your dead And they keep saying you're attacking our babies Then give us back our hostages and we'll stop I know that's rough language But they have Americans Give us back our hostages and we'll stop bombing you otherwise If I I think Israel is absolutely um Holding themselves back because I'd probably blow the whole damn thing off the map And say there's not going to be such a thing as the west bank if you don't give us back our hostages But I know that's crazy talk. I know that that you don't want to hear me say that But can I be that transparent with you? Absolutely

[12:00] so This is the Christian pro-life pastor of this radical Zionist evangelical church here in court of lame called Candlelight Now for the past few years, there's been this kind of ongoing operation happening in Kootenai county at the hands of the members of this church Where they have been alleging that somehow I With zero funding with no money with no power Just a guy that wanted to run for school board that somehow I am leading the charge to help Nick Fuentes and the groypers take over The Kootenai county republican central committee Which is ridiculous Absolutely ridiculous Like there are what five ten groypers in this county. Maybe maybe more maybe a lot more

[13:00] But at the time at the time in 2021 2022 2023 before Nick Fuentes was going on Patrick bet David And all of these different big podcasts that he's been going on This was not happening sentiment against Israel didn't even begin to turn until after October 2023 So these guys were running with this narrative and accusing everybody on the central committee that didn't go to their church Of being a groyper And this caused a lot of problems. It actually led to Of a large portion of the republican central committee They lost their seats because of this Because instead of talking about the actual issues that matter the economy What's going on with property taxes grocery taxes? How are we improving Idaho instead of talking about the real issues? They were talking about groypers And they lost they lost to a bunch of rhinos a bunch of crossover democrats

[14:00] and now It's looking like the central committee is going to be lost Either by a takeover from the left or by a takeover by these people at Candlelight Christian Church And I am astonished that nobody is speaking up about this now granted I've had a lot of experience getting slandered by these people being called names by these people but You

know that was me Well, the reason I'm making this video is because they're at it again And they're getting worse and they're getting worse because they're losing And as they lose they are going to continue to get more erratic more radical more extreme in their Ambitions to take over the Idaho republican party so that they can continually pass these resolutions

[15:00] in support of Israel and so what happened recently that Kind of piqued my interest in this two things one There was a resolution that was introduced into the Kootenai county republican central committee about two months ago And one of these liberals tried to one of these liberals It's from a group called the north Idaho republicans We're getting into the nitty gritty here the north Idaho republicans is this loosely associated group of people led by a woman named Crista Hazel Crista is the daughter of the FBI agent that pulled randy weaver off of ruby ridge Right Crista also She got caught stealing three hundred dollars from JC Penny Just two months before Ruby Ridge happened and her daddy got her off her FBI agent father Got the felony charge against her dropped

[16:00] I've got the receipts for that posted on my twitter if anybody is interested And so this group the north Idaho republicans they tried to amend This resolution an insert a clause talking about how we support Donald trump's bombing of Iran right And the thing is That's not what the resolution was about it didn't fit it wasn't In in the spirit of the resolution and so the author of that resolution Guy named Henrik Mills He said that he didn't like it. He didn't like the the the amendment and he said that he didn't like Israel So these people at Candlelight church, which by the way, they run their own little telegram group chat, right? It's called the Kootenai county spectator And the people in this group immediately

[17:00] Let me get this centered here. They immediately said that mills declared his support for Hamas Hamas Not not wanting to have a resolution Or an amendment to a resolution equals You're a terrorist now And so they have been activated by this and they introduced a resolution earlier this week on Tuesday Supporting Israel again. It's like the fifth time that they've passed a resolution supporting Israel But here's the thing this time They sent people into that meeting the person that they sent was named Richard Matt Blatt And here's his tweet. He surreptitiously recorded the meeting and Took eight seconds of Henricks

[18:00] Speech or whatever his comments And call it context. Let's take a quick look That's it. That's it. I don't support terrorism. I don't support Hamas. I also don't support Israel And for this he gets called a Hamas supporter He also got called let's see here He also got called an antisemite by this guy named Russell Mann Now Russell Mann Here's a goofy guy. He got caught selling alcohol to minors. He's fat ugly He's obsessed with me And he is extremely pro Israel. That's basically all that he cares about. He thinks everyone's a nazi And he supports Israel

[19:00] He's a part of this north Idaho republican group too But you can see that these people are In these positions They are directly engaging with politics Which they shouldn't be And they're doing it on behalf of Israel Now As all of this is going on, right? There's this political knife fight that's happening Between the north Idaho republicans liberal Zionists The Candlelight Christian group conservative Zionists And then the vast majority of people in the KCRCC who Are just normal people who are trying to make their community a better

place And both sides are attempting to take the regular people out and It's time to start discussing this

[20:00] And something else is going on too, which is really interesting and that is in the wake of October 7th Paul Van Noy and his staff have gone so above and beyond to hammer home Why we need to support Israel and it's his biblical truth and if you don't support Israel You stand against everything god stands for this kind of rhetoric well This is turning people off And not only is it turning people off People are starting to pay closer attention to what they're saying And recently somebody emailed this website to me Called Candlelightrevealed.org And I think you should check this website out Candlelightrevealed.org And in it they Document what these people are saying out of their own mouths

[21:00] So we're gonna get into some of this stuff. We're gonna go over this We're gonna go over the background of Candlelight how it came about why it came to cutie county why Paul Van Noy lives up here, uh, and so You know, this is An issue this is a big issue And it's time that we start talking about it. So first of all This church teaches a doctrine called greater Israel For those of you that don't know greater Israel is the idea that Israel is going to have to expand they're gonna have to annex the west bank They have to destroy Gaza and murder everybody inside so that they can take that over to They're also going to take over the Sinai peninsula parts of Iraq Syria And here it is from Paul Van Noy's Own mouth. Let's take a look

[22:00] But Israel is going to own all the land inside the perimeters of these red lines And so all the way to babel on on the Euphrates river all the way down and to the Nile river in Egypt all the way up into Syria Lebanon will be completely consumed and even a part of turkey Look you guys. I'm telling you. This is the land of Israel The next slide shows you a map This is the land of Israel within the boundaries of this red line that you see scab there This goes all the way to into Iraq to Babel on all the way into Egypt at the Nile river All the way up into Syrian Lebanon This is a massive area the what Israel owns today and is occupying today is the little brown sliver That you see there next to the word Israel It says the greater Israeli border So next to the word Israel you see the little brown dark brown section that's there on the side of the mediterranean That's all they occupy today. They've given up the west bank. They've given up the Gaza. They keep trading the land They're still under judgment. There's all kinds of problems here But this is the land area that god promised to Israel and they will

[23:00] all obtain it or God lied and you might as well well all go practice yoga and be Buddhist Because I'm you you don't think I'm telling you the truth You might as well just have a fake sense of peace and try to get in touch with your nirvana self because look I'm telling you God said the Israel is going to occupy the whole land and it will is in it is in god's covenant with them forever And if god doesn't do it he lied and if god lied your faith is in vain. You've got nothing That's why I say go be a Buddhist and practice yoga drink

[24:00] Satanic labels and attacks on Catholics The roman catholic church listen carefully don't do not assume what you think I'm what I'm saying listen to what I'm saying the roman catholic church is cursed The roman catholic church is satanic The doctrine of the roman catholic church is satanically inspired You need to know that and why I still take the position that roman Catholicism is satanic Catholicism is a damned religion It is focused entirely on death wow So that's the kind of preaching going on over at Candlelight church Israel needs

to expand its borders He's saying things like if it were up to me I would blow the whole damn thing off the map This is not Christianity

[25:00] This is something Way darker way more extreme. This is not love your neighbor. This is not turn the other cheek. This is Get out of the way or I'm gonna kill you That's what he's saying And his followers Erin Bernard Stephanie Fetzer All all down the list lucky Bernard. We'll get into some of these characters in a moment They are motivated entirely out of this psychotic idea That we need to work to bring about the conditions necessary For the end times for the rapture It's a doomsday cult. It's an anti-Catholic Judaism Domsday cult that's essentially what this is and the website that was sent to me this Candlelight revealed dot org was actually written and made by people Who went to the church? Let me read this to you We are concerned conservative Christians some of whom are former congregants of Candlelight Christian fellowship

[26:00] Folks who have sat in the pews sung the songs and wrestled with the teachings from diverse Christian denominations Were united by our love for Jesus and our deep concern for where the church is heading former congregants We've lived Candlelight's community firsthand The fellowship and warmth that drew many in yet our insider view compels us To highlight troubling teachings and leadership choices always with hearts for the people we cherish This group is from many denominations. They reflect a broad spectrum of faith experiences They bring varied lenses to the critique strengthening the call to unity across the body of Christ. They love Jesus And they're deeply concerned about Candlelight Leading people astray with its doomsday theology and divisive practices

[27:00] Our goal is to inform and protect the broader Christian community from these influences and it is a problem because These people at Candlelight Are causing division They are Encouraging hate Hatred of people like me hatred of people like precinct committeeman Henrik Mills Hatred of its Committee chairman Brent Regan And it's all Because of Israel has nothing to do with what's going on locally has nothing to do with the schools The roads the city councils the development the growth the fact that the prairie is being eaten up by these greedy developers That's not what motivates them What happens to their children clearly also doesn't motivate them because all they do is advocate for war War with Iran war with Gaza war with the Muslims

[28:00] And that war if they are able to Gain the representation on the central committee that they want if they're able to take over The republican party of Idaho That's what they're going to push for And it's going to be your kids and my kids That get sent off to the middle east to die And I'm not going to let that happen And that's why we're talking about this So There's a tab here on the website called Candlelight politics Let's take a look at what it says Candlelight fellowships political activity is deeply intertwined with its doomsday theology As its leadership teams and advisors seek to advance this narrative at all costs even if it means fracturing the larger conservative Christian movement Their attacks on other Christian denominations such as Catholics Illustrated willingness to engage in divisive tactics that prioritize their doomsday agenda over Christian unity. Yes, it's basically what I said

[29:00] The quotes below come from Paul Van Noys political brain trust Ask yourself does this brand of theology put America first? quote I believe the united states was created by

god to protect Israel in prayer in support financially influence all in Until it's done Even if they aren't good friends back to us even if they screw up That's from a Candlelight political advisor. Here's another one He god Made America to help fulfill the promise and prophecy to the Jewish people to return them to their land And knowing that he has a plan for these people But Satan would use the world to kill them and ruin god's plan for his people He needed an outside protector until his time for them was ready

[30:00] So when people ask if I'm a Zionist I say absolutely If they ask if that means I'm Israel over America That's not a linear answer I believe they are married I am America first because I believe if we don't exist Then Israel can't either You know there's more Is this is this from Candlelight let's take a look we are commanded as Christian. Oh, no, no, no, that's a Tucker Carlson clip Okay, but you see what we're getting to here These people prioritize foreign policy prophecy And they're misreading and misunderstanding of the scriptures To the point that they will not allow A non evangelical To run for school board Because of a couple of things that I said on twitter in 2016 or 2017

[31:00] Think about that Their priorities are so out of whack They're disordered In every sense of the term And so let's look at some other stuff that we've got going on here. What is this? Lindsay and Candlelight this is actually the first time that I'm going through the website So you we're learning this together James Lindsay and Candlelight Christian fellowship a disturbing alignment The collaboration between James Lindsay and Candlelight Christian fellowship which hosted him last year reveals a troubling pattern of tactics that conservative Christians should find deeply concerning the tactics James Lindsay An atheist and a liberal who masquerades as a conservative labels anyone who disagrees with him is woke right This includes a wide range of groups from paleo conservatives to philosophers MAGA nationalists to anti interventionists Creating an enemy's list rather than engaging in debate Lindsay's approach mirrors the cancel culture. He claims to oppose Exploiting fear and cult-like adherents to enforce his liberal orthodoxy

[32:00] Candlelight's decision to host Lindsay last year aligns with this pattern of labeling conservative dissenters from their doomsday theology and Israel obsession as white supremacists and monarchists Focusing on an echo chamber of intolerance This convergence of Lindsay's ideological rigidity and Candlelight's apocalyptic fervor prioritizes division over dialogue So for those seeking a conservatism rooted in reason faith and unity this alliance feels like a betrayal Both Lindsay's label games and Candlelight's fear mongering disregard the conservative ethos Of open debate and community focusing instead on controlling the narrative And that's what they're there to do And they control the narrative in several different ways. I'm going to go a little off the website here One of the ways that they control the narrative Is by bringing in

[33:00] Israeli soldiers IDF people intelligence officers To give addresses To their congregations One of those people is Amir Sarfati Amir Sarfati Is the founder of a group called behold Israel one for Israel And here we've got a little ai overview He joined the IDF in 1990 Became a major in the IDF reserves He was involved in the first gulf war. He was elected or appointed deputy governor of Jericho in 1992 He served as a negotiator on behalf of Israel's military And he became a homeland security consultant But here's the interesting part Following his IDF service Sarfati became a bible teacher speaker and author leveraging his military experience and Israeli background

[34:00] To provide commentary on biblical prophecy and middle eastern events And he founded the nonprofit ministry behold Israel in 20 There 2001 So these are the kind of people that they work with James Lindsey amir Tsarfati Others that they bring in to just pound home The Israel narrative that their gods chosen people that somehow genesis promises Israel to the modern-day jews that somehow the modern state of Israel founded in 1948 on terrorism is somehow fulfilling god's prophecy If you're not aware about the founding of Israel

[35:00] There is a good book that you can read It's called the controversy of Zion by Douglas Reid This gets into the founding of the state of Israel. I believe it was a New York Times journalist actually and It's quite insightful because it goes into how the jews the Zionists collaborated with nazis How they formed paramilitary groups like the stern gang the Lehi the Hagenah the Irgun Jewish terror organizations that blew up the king David hotel that murdered Moeen Bernadotte That engaged in political assassinations And genocide in 1948 during the Nakba when these groups murdered an entire village In a place called Daria sin. Let me let me pull this up for you real quick

[36:00] Just in case you've never heard of this before The Daria sin massacre. There's a whole Wikipedia article about it. There's books written about it. You can read and This is what happened before the founding of Israel. Mind you. This is before Israel declared its independence before they were recognized by the united states as a legitimate entity these people the Irgun and the Lehi which are paramilitary organizations gangs They went in And they massacred the people They would take pregnant women and cut the unborn child out of their womb and hang them on trees I've I've posted Photos about this. Let me pull that up too Doing this on the fly The photos Are just gruesome And maybe y'all even get banned on YouTube for posting these

[37:00] bodies stacked on bodies children mutilated ripped apart torn limb from limb killed In the hands of their mothers in the hands of their fathers This is how the state of Israel was founded And of course if you've been paying attention, this is what Israel has been doing in Gaza murdering children blowing them up ruthless disgusting And Here's what some of this looks like and it's it's I'm probably like I said going to get banned. This is what Israel is doing to little children this Is what Paul Van Noy and Candlelight Christian fellowship supports

[38:00] Do you think that's Christian? Do you think that's moral the right thing to do? And anybody that has a problem with it Gets called an antisemite white supremacist monarchist. Whatever label they want to use to label lynch And attack and get you to shut up and get you to Stop posting things and and this is Very very concerning Obviously And this is one of the reasons why we have this podcast in the first place um Here's a post from a friend of mine independent journalist Casey Whalen This is from back in oh, when was this October 2024

[39:00] He said Candlelight Christian fellowship in court of lane is not what it appears to be Over the last year. I have personally been asked vicariously By pastor Paul Van Noy and others at Candlelight to take down various posts that they disagreed with At first I was slightly annoyed by the requests and didn't tolerate it for long Others have been asked by those associated with the church to remove social media posts And after releasing the public private meeting held at Candlelight Christian fellowship a few months ago the panel Hosting the meeting attempted to promote a narrative that the Kootenai county republican central

committee is occupied by groypers And those who espouse a monarchal ideology In a feeble attempt to splinter the party just before the election last may Now This is One of those things that I'm gonna put it in the show notes below if you want to take a listen to this but What happened was Candlelight Christian church hosted a panel of elected representatives

[40:00] Senator Ben Towe's representative Elaine Price and representative Joe Alferi if memory serves correctly They hosted this political panel They had a short intermission and then they had an hour and a half long struggle session With the chairman of the republican party Brent Regan Several volunteers Pre-synched committeemen And I was there too. I found out about it and I went And the whole meeting was about me It was about me. It was about Nick Fuentes. It was about groypers And in the meeting Which was led by a couple of these people. Let me pull up on the screen this picture You have over here on the left Uh woman by the name of Stephanie Fetzer This guy a tattoo artist named Lucky Bernard

[41:00] And then this is I think Jason Wilson He's an associate pastor At the church now in this meeting Lucky came out and said that he That he has provided information about Local extremist groups to the FBI. Well, that makes you a fed that makes you an informant, right? And Not only that but let's just take a quick look Let's take a quick look At the kinds of tattoos that this guy Puts on people right? He's a Christian He's brought in by the church To to give a speech Where is it? Where is it? Come here. He's brought in by the church to give a speech

[42:00] Right Well, let's take a look at the kinds of tattoos that he does motley crew shout at the devil and then an upside-down pentagram and an upside-down cross On what looks like a demon with ram's horns And then you've got the as above so below another satanic Symbol iconography Here's one of a none You know, how about all cops are bastards? Right does this guy strike you as like a Christian conservative? Not me And so While we're at it. Here's uh, this is Lucky's wife Erin Bernard She runs an account called the Kootenai county spectator

[43:00] A news source for the county And this is Stephanie Fetzer The same woman that you see over here, okay So they host this struggle session which you can listen to I I encourage it I encourage you to listen to it because you can see how absolutely Fucking ridiculous it is. It was a witch trial. It was a You know struggle session About we're not being heard. You've got a problem in the party. You've got grippers. You've got anti-Israel antisemitic haters in the party What because people are skeptical about Jeffrey Epstein's ties to Mossad? because people are sick and tired of the forever wars because We've had enough of seeing the dead babies from Gaza and we're tired Of our money subsidizing this And so they'll come after you they'll call you names and like me they will

[44:00] ruin Your reputation and they'll make it impossible To find work which is something that happened to me and here you can see we've got another one of these messages from their group chat This is Lucky talking You have no idea what's going on without telling me you have no idea what's going on PS the left kicks out people from their side Way more often than the right does You say one thing that deviates like maybe we should question transing of kids a little and they get put into the airlock And we collect they're rejected with open arms and no vetting so he's like what implying that I'm some sort of leftist And here he is talking about me and no one is stopping Dave From making a living he can literally do

anything else besides sabotage and smear the local republican party He admits to hating and make money off of it get wrecked Now I have never smeared the local republican party

[45:00] That's bullshit and you know it I ran for office I ran for office as governor for governor That's why joe Alfieri and elaine price even got elected by a margin of 50 people so Then we have our friend matt for CDA chiming in here Why would any decent person care if a rabid anti-American antisemite has problems making a living See they want to starve children in Gaza But they also want to starve children over here if you don't go along with their narrative They want you to lose your livelihood And lose your ability to provide for your family That's what's going on here And so a little bit more information while we're at it about this matt guy

[46:00] This is one of the people who was present at this struggle session Present at this meeting where we are trying to get to the bottom of the groypner takeover of of Kootenai county This is his resume check this out this comes to us from Another independent journalist formally of the daily caller his name is Arthur Bloom Matt Blatt Used to work at Booze Allen Hamilton Now for those of you who don't know Booze Allen Hamilton is like a private CIA They have weapons contracts military contracts intelligence contracts to do things in the private sector Without oversight That the CIA is not allowed to do He also worked in the pentagon as a security cooperation program manager He worked at CENTCOM in Africa

[47:00] During Benghazi He was a psychological operations advisor He was the director of governance for special operations command in Afghanistan And he was the psychological operations branch chief So You've got these people from Candlelight Christian Zionist church that run this group chat this echo chamber That have people like Matt Blatt Richard Matthew blatt From booze Allen Hamilton in there stoking the fire And feeding them talking points and reassuring them That what they're doing is right And by the way, it was the same guy Matt Blatt

[48:00] that posted this video of Henrik mills out of context To bully him to label him an antisemite and You know There's a lot of really interesting connections that are starting to to come here, right? We've got this guy named matt blatt. He's got a background in the military a background in psyops private CIA military industrial complex You've got this guy amir Tsarfati the IDF soldier that became the governor of Jericho and then decided to Give his life to Jesus and start teaching Christian Zionism with his nonprofit the whole Israel Once again from military to this Christian Zionism stuff. Well This fits a pattern this fits a pattern here Because the reason why Paul Van Noy Is in Kootenay county in north Idaho to begin with

[49:00] Is because he was invited By a similar character. Here's a article that was posted in 2018 by Paul Van Noy About chuck misler says 22 years ago I was asked to come from California to Idaho in order to teach and leadership at the coinona house chuck was always he was away leading a tour to Israel Shortly thereafter chuck asked me to begin teaching a bible study on Thursdays in the studio and of course This is what led to Paul Van Noy founding Candlelight So the first question you should ask yourself is Who Is this chuck guy? well This is chuck chuck misler American author evangelical Christian bible teacher engineer and businessman. Let's get a little bit deeper in in his business career

[50:00] Misler joined western digital As chairman and chief executive in June of 1977 and became the largest shareholder of the company You know western digital. This is the the hard drive company. They make CDs. They make hard drives. They make computer parts This is like a very large uh very large Company that that handles data it handles information In 1983 misler then became the chairman and chief executive of a group called helionetics incorporated now helionetics Is a really interesting company too they Were founded or operated at least By a Jewish guy named bernard catz

[51:00] right Who found this bankrupt firm took it over And apparently made it a big deal because They had lasers That would be used in Ronald Reagan's star wars defense program You see this here star wars missile defense program And if you look at The board Of who was on helionetics take a look The board of directors included from left retired navy admiral Thomas hayward hydrogen bomb developer Edward teller retired air force general David c jones And former us treasury secretary William e Simon so a guy that was involved

[52:00] In defense technology weapons manufacturing the CEO of western digital and then the CEO of helionetics A laser weapon company He he has one more business venture Called phoenix group international Which sold personal computers to Russian schools during the cold war And they filed for bankruptcy along with allegations of fraud and mishandling of information right they said that they Had experience selling computers when they they never really did that's at least what this Wikipedia article says here, right? No experience with computers So they filed for bankruptcy in 1990 well after

[53:00] They filed for bankruptcy misceller moved to north Idaho Where he became a prominent Christian Zionist and speaker on the subject of bible prophecy Isn't that interesting goes from military industrial complex to Christian Zionism And this is the guy that invited Paul Van Noy To come preach here in north Idaho and Paul Van Noy isn't just preaching in Idaho He's also preaching in Israel to the idf The day that the church was having their little struggle session about me Is the same day that this picture was taken where Paul Van Noy Was preaching to a brigade of Israeli soldiers That murder and massacre children

[54:00] And it's all par for the course. I mean He can't preach the gospel to them. They're jews. They don't believe in Jesus Christ They don't believe in forgiveness. They don't believe in turning the other cheek They believe in an eye for an eye a tooth for a tooth They believe in turning Gaza into rubble 90 of the homes in Gaza have been destroyed 19 000 children and that's on the conservative side. That's on the conservative side It's probably a lot more so What are we doing here? Here's a video of this chuck guy Speaking 13 years ago. This is 13 years ago Clearly the Zeke of 38 passage Occurs prior to the second coming of Christ the second reason it's so well known it appears to

[55:00] Allude to nuclear weapons second thing it leaps out at you is the motivation isn't spoiled It's to wipe Israel off the map Iran is after a nuclear weapon for reasons most people don't realize Those of us that have a heart for Israel tremble because of a nuclear nuclear Iran Is a threat to Israel what most people are not aware of is a 1400 year war guys this is the app so 13 years ago we're here talking about a nuclear armed Iran and what do we just do what do we just get done doing We just got done bombing Iran bombing the uh the nuclear facilities in Iran against International law by the way that was illegal what they did

And it's pushing us towards world war three if we're not already in it With what's going on in Russia Ukraine Israel Gaza Iran Venezuela What's happening down there? So these people have a vested interest in promoting war

[56:00] In the middle east don't they they all have connections to the deep state To the military industrial complex To weapons manufacturers That's the world that every one of these people comes from It's aren't men of god These aren't bible scholars They're bomb salesmen You know, it's just incredible How transparent it is when you take a look And that's not all that's concerning There's also Some very interesting stuff when it comes to their business practices So first of all you remember we went over this earlier on about how nonprofits

[57:00] and churches Are according to the IRS Absolutely prohibited from directly or indirectly participating participating in or intervening in any political campaign on behalf of or in opposition to any candidate for elective public office right We're not supposed to intervene in political affairs So You've got that issue of their dancing around the IRS laws But can someone tell me what's going on here? Why do they have? One two three four five six seven eight eight different nonprofits

[58:00] Why do you need that? Why do you need eight nonprofits for one church? I could see if you had like a school making a nonprofit just for the school and making a nonprofit just for the church But this isn't that this is different and look at the dates on these 2024 2024 three of these entities were just created in the last year for a church that has been around since 1997 Can someone explain to me What that is You know and the other thing Is that they own a skating rink they own like a You know like a like an old-school skate rink where you put on roller skates and go around in a circle

[59:00] And it's on the same property as their church And so they're making profits there And then where does that money go? Does Paul Van Noy get paid money? In his salary from the ice skating rink or does the ice skating rink donate it to the Church and then it works its way through that and then it gets donated to another entity and then What are we doing here? What's going on and by the way I've had people reach out to me that have left Candlelight church Because apparently this is according to my sources Paul Van Noy gets paid \$400,000 a year That's what they say this guy makes To get on stage And cheerlead for war And to call other conservatives other Christians

[60:00] Concerned citizens of the community. He's getting paid \$400,000 a year to call them antisemitic Unrepentant antisemites do I need to go back and play the video again? Of what he said about me in light of all of this in light of the the various Six at least non-profits that they have in light of the IRS's Tax designation and so we've got it in light of the fact that you're not supposed to be making these types of political Uh endorsements or anti endorsements from the pulpit. Do we have to watch it again? Republican central committee endorsed him and I would not want you to endorse him either And so this is a man that is opposing What god stands for in this case the nation and people of Israel

[61:00] He is disparaging of Israel and the Jews and he speaks out Outwardly about that and so I want to discourage Your participation with him So what are we doing here? We're cultivating a doomsday Christian Zionist cult that believes at the end of the world is

happening any day And if you don't do what He says Then you're an antisemite Paul van Noy has himself personally written pro-Israel resolutions that he has passed off To members of the central committee, namely art Macomber And had them introduced For adoption by the central committee. He's literally writing these political Resolutions Giving them to his parishioners and then telling them to introduce it and pass it at the central committee And then of course you've got these people like Erin Bernard and Stephanie Fetzner are that sit in the spectator seats

[62:00] Taking videos of who votes yes and no so that they can make a list Of all of the antisemites on the central committee and then they'll report back To people like Amir Tsarfati from the IDF And tell them that hey, you know, we got an antisemitism problem in the county We can't get these Israel resolutions passed anymore Doesn't this seem like a foreign influence campaign doesn't this seem problematic to anybody? And then you add on top of it this anti-Catholic stuff Where by the way like 20 of the county is Catholic

[63:00] We've got like eight Catholic churches up here a large majority not a majority but a large portion of the central committee our Catholics And now because of what the pope says Because Pope Francis and now Pope Leo the 14th Have opposed What's going on in Israel? Catholics are anti-semites And anti-semites Support Hamas and if you support Hamas, you're a terrorist and if you're a terrorist you go to jail Do you see where this is going? Do you see where this is a problem? If not borderline illegal It's just astounding It's just absolutely astounding that this is going on And that it's going on in north Idaho

[64:00] You would think that You'd be safe from it up here, you know among a bunch of You know right-wing Libertarian Allegiant nazis everywhere. They're supposedly nazis like behind every blade of grass in north Idaho But these are the people that are really calling the shots these crazy evangelical Christians-Zionists and the amount of people that Give them deference that allow them to label and smear and slander Because they don't want to get caught up in it. Oh I don't want to I don't want to lose my reputation The little children that are dead in Gaza. Yeah Fuck them Not my problem 5,000 miles away

[65:00] Even though it's my tax dollars and my representatives that are voting for it and my president that's bombing Iran and Closer and closer to world war three. I'm not going to stand up and say anything about it. It's okay Because I don't want to face any negative consequences. I don't want what happened to Dave Riley to happen to me A lot of people that think that way it's cowardly and If they don't wake up And see what's going on and see this campaign From these military industrial types We're screwed and that is just a small taste Of what's been going on up here. There is so much more that I could get into maybe I will Let me take a quick look but You know and and they operate as a network. You see they operate as a

[66:00] network between This Matt Black guy And his bot accounts that interact back and forth with Erin Bernard and Stephanie Fetzner And an account called Spoke Hand Zionists for Israel which is in Washington by the way not Idaho not Kootenai county Washington And of course they stalk the podcast they've stalked me they've stalked my pastor my friends and they've even started threatening They've even started threatening like right here Where it says this Real Dave Riley and Rebecca Hargraves from Coeur d'Alene

[67:00] They produce a jew hating podcast on YouTube and apple called the backlash They are putting themselves in harm's way Let me make that bigger They are putting themselves in harm's way Is that a threat? because That's what it seems like I don't understand how anybody doing any kind of a podcast Would be putting themselves in harm's way granted. We did just see Charlie Kirk get Shot and murdered assassinated in broad daylight For what he was saying so You know or or maybe one of the other participants In the Kootenai county spectator chat the The group chat run by the people from Candlelight church, right? One of the people in that chat is Coeur d'Alene city counselor Dan Gookin

[68:00] Well, here's Dan Gookin saying i wonder if Israel has an extra missile they can target to specific locations in Kootenai county And then Jeff 56 Who many people believe is actually Richard Blatt? Says don't worry riley is so paranoid. He thinks he is worthy of massage interest. Okay Well, what about somebody else? from their church that posted eat shit grippers in a picture of him with a sniper rifle And they call me an extremist They call Rebecca an extremist

[69:00] These people are fucking dangerous They're dangerous because they don't care about life They don't care about death. They don't care about murdering as many people as it takes to ethnically cleanse Gaza To annex the west bank and steal people's homes there And you don't think that they'll do that here. You don't think that they're gonna Pick up arms and start going after the grippers that these pastors Irresponsibly preach about as if they are some kind of existential threat to the existence of Israel couple of people with a differing opinion Really? It's sick It's sick These people are sick and Like we like we've been covering People are starting to wake up Like these people that created Candlelight revealed org

[70:00] These are all people that went to their church people that sat in the pews with them that since October 7th have figured out that These people are crazy a matter of fact It says down here one of the quotes from pastor Jason Murray the assistant pastor By and large we dispensationalists are regarded as weirdos and cultists gee I wonder why Can't guess right and so You can find out more about What they believe What they think on this website Candlelight revealed They're trying to bring about world war three By aligning us forum policy with an apocalyptic agenda

[71:00] Dispensationalism risks entangling the united states in endless conflict prioritizing a speculative biblical narrative over American interests and global stability It's a reckless pursuit that heightens the risk of world war three as it fuels geopolitical tensions and ignores the new testament's call for peace Making it a divisive and destructive force that Christians must reject and they promote hatred of other Christian denominations specifically Catholicism They also believe that there's going to be a rapture see how that worked out this week wasn't there a TikTok that said that the rapture was going to happen this week and people sold their homes They took out credit cards and ran up debt thinking that god was going to suck them up into the clouds And now where are they broke destitute without a home this happened in the 1970s

[72:00] Don't you remember Well, I don't I wasn't around back then but This is scary shit frankly and the fact that nobody else is willing to talk about it is also a little scary Because if we don't speak up if we don't speak the truth if we don't come to a better understanding of our Christian faith If we don't put America first What are we going to leave behind for our

children a war-torn country indebted To be involved in a conflict based on somebody's weird novel interpretation of the gospel It's just unbelievable

[73:00] And this is just the tip of the iceberg We're not going to get into it, but there is something called the Idaho-Israel alliance In case you're not aware There's a whole website It's another group called the inland empire for Israel there's rallies that are hosted On the steps of the capital in Boise by Israelis dual citizens that were not born in America that have our governor brad little our attorney general Raul labrador and our Representative Russ Fulcher Wrapped around their finger But I'm the hater Because I care about the country And I care about Not getting involved in a war I'm the hater. Okay got it. Well, anyway

[74:00] We're going to get into all of that in a subsequent episode as we continue to this deep dive into Idaho politics Because there's so much to cover There's a lot going on and there's a lot of work that needs to be done And not a lot of people willing to do it So please make sure you support this podcast the backlash Go to the backlash.net slash donate You can help us help our community by raising awareness to these extremist Christian Zionists these bloodthirsty freaks that want to control every aspect of our political life to ensure that Armageddon comes and if you are watching this and are new to Some of these concepts new to the struggle between Israel and their neighbors in Lebanon Gaza Syria Iraq

[75:00] Iran I've got a few books to recommend number one the controversy of Zion by Douglas Reid Good book will go over at some point another one is dark crusade by Clifford kirakoff all about the Israeli lobby and the military industrial complex and how they benefit from these wars but also For those of you that are catholic that might be watching this it would behoove us to understand the catholic position on our relationship between Catholics and jews between the catholic church And Israel and one of the books that I cannot recommend highly enough Is the kingship of Christ and the conversion of the Jewish nation? by father denis fahy this book was written And published in 1953

[76:00] And it talks all about the anti-white agenda of the anti-defamation league it talks all about How these terrorist groups murdered Palestinians and stole their land to create their satanic antichrist state You can also read a book by one of the defenders of the catholic church a renowned author poet named hilar bellock He wrote a book called the jews in 1922 That's worth reading And something a little bit more contemporary If you believed moses volumes one and two by father james mobsley You know if you're just sitting at home watching these content creators watching podcasts Candace Owens whoever You're not really getting into the depths

[77:00] of this issue and Considering the stakes that we are in Our government's 30 trillion dollars in debt We're about to default on our treasuries We're about to be dragged into a war In the middle east again The stakes could not be higher and that's to say nothing about the issue of right and left That's to say nothing about these crazy people that celebrated the death of Charlie Kirk That thought he was a neo-Nazi white supremacist and they rejoiced at his death And and and you think that that's it That that It's gonna end with Charlie It's not gonna end with Charlie

[78:00] There's going to be more violence And I think some of it is going to come from these crazy evangelical people That have been propagandized by the Israeli defense forces And

their pastors To hate their neighbor The stakes could not be higher and so That's some of what's been going on in Idaho Did you find that interesting? Did you enjoy it? Do you want to hear more? Please make sure you like this video subscribe to our channel comment below Let me know what you think let me know if you're seeing some of the same patterns in your area of perhaps these former defense contractors that

[79:00] Have become preachers and are all the sudden bible scholars that are pushing us towards war Is that is that happening in your area too? Because I bet it is So be vigilant Take heart because This struggle has always been going on. This is the struggle that was going on back at the time of Christ Between Jesus and the Pharisees and the sycarii zealots. It's the same battle we have today As it was in the beginning is now and ever shall be world without end so That's all I have for you tonight. Thank you so much for tuning in and joining me on this little journey and I hope See you again soon. God bless and have a great night
