Transcript: Backlash After Hours_ Dirty Tricks, Zionist Christians, and the Republican Civil War (nov 02, 2025)

Hello and welcome to a special extra late-night episode of the backlash. I'm your host David J Reilly. Rebecca and Cameron are off It's like one o'clock in the morning. I finally got some free time It's been a crazy week, you know My oldest daughter has had off school for the week and so we've also had Halloween I hope everybody had a very happy Halloween all Saints Day all souls day coming up That'll probably be done and over with by the time that this episode comes out but a happy Halloween season to everybody There's been a lot going on and it's just been like a deluge of Information new stuff that's been happening So much to comment on so much to talk about but I know I promised on Wednesday that I would do like a special Episode Kind of discussing a little bit more in detail some of the stuff that was going on with our meet-up that happened on Monday where people

00:01

Well a special group of people the Zionist Christians over at candlelight Christian Fellowship basically set up me and Rebecca And they they had some friends if there's called the cops on us because we were Daring to meet in public a bunch of you know extremists getting together with other people that share the same exact views to like I don't know eat dinner and you know one of the other things that was supposed to happen that night was There was supposed to be a candidate forum on Monday last week with Dan Gookin who was running for Coeur d'Alene mayor that election is coming up on Tuesday of this week and For a long time, you know, we'd be kind of button heads with Dan Gookin. Those of us that live here in North Idaho he's been Not very good of a city counselor. He was in favor of hate speech laws He was in favor of gay pride parades in favor of the pride in the park event. He voted for a

00:02

gape gay ordinance like the bake the cake type ordinance that came out Back in like 2013 or 2014 or something and so there were some hard questions that we wanted to ask him at this candidate forum that was set up by Stephanie Fetzer from candlelight Christian Fellowship, but No, they had other plans they changed their meeting and then they printed out these flyers They printed out these flyers and they handed them out to the food trucks Who then handed the flyers out to their patrons to people that came to eat and It's pretty unbelievable what it says. Let me see if I can Put it up on screen real quick just so you can you can see what we're talking about I don't know if I'm gonna be able to hold it up and have the camera be able to focus on it Let's see here Where is it? Do I have it up? I can edit this. Maybe I'll edit this

00:03

The technical difficulties always remain here we go so we've got the flyer up on the screen Hopefully you can see it You know this flyer says that We're having a community meet up at Prairie Pavilion We're bringing their own our own pizza and beer now of course like what I say on the program and what actually winds up Happening in real life for two totally different things. We did not bring any beer. There was no pizza brought into the pavilion I don't know What's going on other than this was a false report that was given to

the police Which is a crime by the way We went over some of this stuff on the Wednesday episode of the show last week talking about these allegations that we are a Podcast that promotes a unified ideology centered on antisemitic conspiracy theories and as we discussed

00:04

We aren't unified in the ideology. We're unified in that. We're all Americans All three of us on the show me Cameron blonde. We're all white people and so we should be unified in that We're all white guys. We're all white. We're all American for the most part I mean blonde and I are both Catholic although, you know, she needs to go to church a little bit more often no offense So we're unified in that we get together and we do this show as a unit Twice a week once a week twice a week but we engage in a lot of debate a lot of dialogue we talk about a lot of different things and I think that that ability to talk is exactly what we've been missing in this country for a very long time We've had a monopoly on the media. We've had Sensors and cancel culture that has put guardrails on what we're allowed to talk about and discuss and so we get together to Talk about what our ideology should be what we should be asking our politicians to do what we should be asking of our Representatives what we should look for in a leader what we should look for as a movement, right? So we have those discussions here

00:05

But I would I would take issue with the idea that we have a unified ideology. I have a unified ideology I'm Catholic and everything fits in my worldview perfectly actually But we'll get more into that in a bit, you know, the the flyer says that we hate Charlie Kirk That Donald Trump allegedly serves serves Zionist interests And it says an intense misogyny that blames women's empowerment for societal decline, but like that's true bitchy women Sock they've like ruined everything So I mean listen if you can't handle the truth don't watch the show, okay It says that we have a monarchy agenda on here, which I still don't understand why these people care like yeah I support a monarchy in France I think a lot of people do a lot of the French people do Louis de Bourbon came out a couple weeks ago We covered this on the show and said that he'd be willing to reestablish the monarchy in France

00:06

That's a good thing. I think I think that the French Fifth Republic was a disaster The whole French Revolution was a disaster anybody that would come out and start talking about building guillotines and killing their leaders In an act of revolution like that not a fan. I'm just generally not a fan It's never really worked out between the French Revolution the Bolshevik Revolution Those didn't work out too well not a fan So Anyway, it concludes by saying that we risk inciting harm by normalizing antisemitism anti-American sentiment and Attacks on marginalized groups functioning as a radical call for exclusionary control and a rejection of democratic values My democracy. Oh, no our democracy. What about our sacred democracy, right? Where does where have we heard this before Marxist groups leftist groups democratic groups?

00:07

Anti-American sentiment and of course and we'll get into this in a little bit there what the the establishment is doing right now the Mark Levin's of the world as Steve Bannon calls

them the venomous coalition This group of people equates Anti-Israel they equate lack of support for Israel as anti-American Well, I Don't know about that. I mean I grew up before 9 11 I remember what it was like here before the Patriot Act remember the vault seven leaks from Edward Snowden about how they were using our TVs and our cell phones to spy on us and

00:08

Then that's to say nothing about the amount of spying that Israel has done on the United States Covering up the USS Liberty, which was before I was born But in 2019 when Donald Trump was in office. There was a Politico story about how Israel was spying on the United States And so I'm against that I'm against that deep state. I'm against the surveillance state. I'm against Palantir. I'm against Israel spying on us. I'm against China spying on us. It doesn't make me anti-American and But as we'll see later, this is all really just AJC talking points, of course the American Jewish committee But one of the things that really concerned me about this flyer That we'll put up on the screen here. Let's see Is down in the the lower left-hand corner it says caution Catholic equals anti-Semitic Well, I've got news for whoever made this flyer

00:09

That's a hate crime Sorry pal, but gonna be reporting that one To equate Catholic so In order to have like a really good conversation about this It's important to demystify a couple of things here There is anti-Semitism and then there's anti-Semitism They're two different things Anti-Semitism according to Mark Levin and the AJC and the pro-Israel Miga crowd the make Israel great again crowd According to them anti-Semitism is not supporting Israel enough It is not unequivocally supporting Israel no matter what they do They can kill as many prisoners as they want they can drop as many bombs as they want they can rape Palestinian prisoners They can use assets like Jeffrey Epstein and

00:10

Take American children and use them up and spit them out in these sex trafficking rings for blackmail and If you if you don't support Israel Unquestioningly if you bring any of that up if you mention the USS Liberty if you mention The stranglehold on the American media that pro-Israel groups have had Then you're an anti-Semite That's what they'll say They'll say that if you don't support God's chosen people That you're an anti-Semite and if you say hey wait a minute, but wait a minute time out time out they rejected God They rejected Jesus they hung Jesus on a cross and they brought false Accusations against him and they dragged him in front of a kangaroo court and they rejected him they killed him It says so in 1st Thessalonians 2 14 through 16. It says the Jews

00:11

Who killed the prophets and killed the Lord Jesus and persecuted us and are the enemies of the entire human race to paraphrase St Paul does that anti-Semitism is the gospel Anti-Semitic is Catholicism anti-Semitic. No, it's not that's not anti-Semitism that's the truth and so there is this difference between Anti-Semitism the way that they wield it as a false accusation as a weapon against their enemies Where they call you an anti-Semite and it ruins your career and it ruins your social standing and your reputation and Actual real anti-

Semitism, which I don't know if we're gonna get into but if you look into it You can you can find the the history of that word comes from a German

00:12

Political guy named Wilhelm Maher who popularized the term in the late 1800s. He was an atheist He wasn't Catholic. He wasn't Christian and his policies of anti-Semitism were an explicit rejection Of everything that the Catholic Church taught about our relationship with the Jews and by the way, there's a great book that you can pick up Highly recommend reading it. It's called the popes and the Jews in the Middle Ages by Edward a sign in Great book. You can still find copies online. We have a link on Our book club at the backlash net by the way, please make sure that you are subscribed to the channel. Make sure you like this video Forgot to mention that one up front But if you look at what the program the way of living between Catholics and Jews There's a very important document called seek you day Usnan which teaches that Catholics ought not Disturbed Jewish houses of worship Jewish cemeteries Jewish neighborhoods shouldn't disturb them

00:13

But at the same time the Jews don't have the right to subvert your culture to subvert your religion or To do perverse things in the public square There's a balance and If the Jews begin to do these types of things in the public square, then the church doesn't stop people From reacting to the behavior of the Jewish people who spit when they hear the name of Jesus Christ They spit on Catholic priests in the Middle East. They bomb churches They kill faithful class Catholics. They ethnically cleanse entire neighborhoods regardless of whether they're Christian or Muslim and that produces a reaction and that reaction is what is labeled as anti-Semitism by these AJC APAC people

00:14

And so in one sense of the term am I an anti-Semite? Yeah, I guess so Because I see what they've done in the Middle East. I see what they've done to the media and to Hollywood and I've seen what they've done in the education system when I ran for school board with critical race theory DEI transgenderism I'm against that stuff and I'm against the people that came up with these ideas because those people are against Christ and So if in the eyes of the world that makes me an anti-Semite so be it I don't care But strictly speaking strictly speaking That's not actual anti-Semitism actual anti-Semitism is discriminating against another person because of who their mother was and that's what the Jews do in Israel in

00:15

America people like Andrew Clavin Allegedly a Christian who believes that he is more privileged Than people who were raised Christian because of his DNA Let me see if I can pull that clip up. I Want to be clear about what I believe and and you know This this hatred of Jews is a hatred of God Remember Paul said that we were grafted on to the tree of the Jews. You were I wasn't I was born there So I outrank all y'all All right, I'm joking, but still but still you know This is this is this God who chose the Jews became everybody's God through Jesus Christ and I'm gonna tell you something You see You see He thinks he outranks you because of his DNA. He thinks he's special because of who his mother was I reject that and

00:16

If you go back and you look there is a interview that I did with JD Hall. He's this author polemicist He runs a sub stack and we did a very long conversation About this kind of thinking which is dispensational Christianity And so please go back and listen to that if you haven't it kind of explains some of this stuff It explains that that verse about being grafted on But that that branch itself was broken off and replaced replaced with the church. The church is Israel It's not a strip of Desert in the Middle East. I've maintained that the Promised Land is heaven. It's not the desert So so anyway, I just wanted to go over a little bit of that because This is crazy. It's crazy that people would call the police On a group of people trying to get together and meet who have similar views and

00:17

Not only that but the people that were involved with this There was a former Department of Homeland Security person Dave Lou Cummings Who used to work human trafficking? Well, where was she when Jeffrey Epstein was trafficking children and and Ghislaine Maxwell? Where was she was she working at DHS? Would she give Jeffrey Epstein a pass? But she's gonna stand there with her husband calling back and forth to her friends at candlelight Christian Fellowship. Oh, yeah, the anti-Semites are here Quick have someone call the cops Unbelievable and by the way, we got some records request back Which is one of the reasons why it took so long to get around to doing this video Casey Whalen has Release them on his Twitter. I believe also on Facebook the two 911 calls came from taco works the taco truck

00:18

and the co-owner of Prairie Pavilion who reported us falsely claiming that we had brought outside food and alcohol and That was obviously a lie It was a setup by the people at candlelight church who had originally planned a meet-and-greet with Coeur d'Alene City mayoral candidate Dan Gookin Stephanie Feter purposefully changed the venue at the last minute in a ploy to get her political adversaries in trouble People should fully boycott Prairie Pavilion and all associated businesses Any businesses who attempt this type of bullshit in North Idaho deserve to be out of business. That's what Casey Whalen says I Don't even know if we should bother listening to these we could How can I help you? So I was told to call you guys I work over here at taco works in Coeur d'Alene and we just got a flyer that there's like I don't know like blight supremacist or something. I don't know. I have the flyer But they just showed up and they're in the pavilion and the owner told me to call you guys and To get you guys to get them out of their state of heart permission Can you verify the physical act they don't have permission did you hear that they don't have permit? Well, we don't have permission to like buy food and eat it like any other normal human being on earth

00:19

really Okay, good luck good luck running a business like that and So the the co-owner called as well. They could you know the whole thing is just it's so childish It is so childish that these people can engage in good faith. They can engage in dialogue So they call the cops to do their dirty business very typical of people who are losing People who are losing the argument who are losing the narrative You know and I'm not the only one noticing this. This is happening

00:20

Across the board, you know, I I think I started the trend of Releasing phone conversations with Pastor Paul van Noy I played the clip a while ago. Let's see if I can pull it back up and the clip was I was on the phone with him and Somehow Israel came up in this phone call I was trying to get these people to get off my back. Let me alone so I can work and The topic of Israel came up and this is what Paul van Noy said and I saw with my eyes What is actually going on over there? Not what we're reading about or hearing about in the media, right? And I think and this for the record I know that we've made this degree here and David, please you and I can disagree about a lot of things agreeably, I think When I see

00:21

What Israel is doing, I think they have every reason to do it and I would do more if it were me I would do more because I would be telling them give us back our hostages or your dad And they keep saying you're attacking our babies Then give us back our hostages and we'll stop. I know that's rough language But if they have Americans Give us back our hostages and we'll stop bombing you. Otherwise, we're I think Israel is absolutely Holding themselves back because I'd probably blow the whole damn thing off the map and Say what there's not going to be such a thing as the West Bank if you don't give us back our hostages But I know that's crazy talk. I know that that you don't want to hear me say that. Oh, no, Paul

00:22

Lay it on me, man Don't hold back. Tell us what you really think and he has been Telling us what he really thinks He's been telling his congregation that he's a prophet. I may be a statesman But I am a prophet. I Am a pastor. I am a spokesperson for God. I'm a prophet I am a spokesperson for God Right. I'm a spokesperson for God. I'm a prophet a prophet that Calls for the murder of innocent women and children a prophet That condones killing 12 civilians For every one enemy combatant killed Really? Pro life Pro America. No, I don't think so

00:23

No, this is demonic. It's satanic. It's a complete inversion of reality And that's something else that we get into in that interview that I did with JD Hall is how dispensational theology completely inverts Christianity Where that phrase that gets thrown around over and over again if you Bless me you will be blessed, right? And if you curse me you'll be cursed and that's talking about Jesus That's talking about the seed of Abraham. Who is Jesus Christ? not Israel Not the people that rejected Jesus not the people that had him hung on a cross and put on trial It's the church So it's a total inversion and of course you see with this stuff with oh we're pro-life and then they go and they bomb kids And they don't say a word about it

00:24

It's an inversion and inversions are satanic and you know There is another clip that got dropped this week And this one came from a guy who I don't really agree with on on much of anything Uh, but this came from dan Wilson. He was a candidate for uh for sheriff up here And uh, I don't really like the guy He's not that smart But the clip is revealing and uh, we'll play it I'm gonna sound very arrogant now every politician everybody running for office always calls my office and makes an appointment to see me Cario I carry a pretty good weight in our community and if people want to get to me they got to get to me It's the right

way if he knew how much weight My voice carries in this community. I'm sure he would have probably offered to buy me dinner

00:25

Oh really Unbelievable and so The levels of pride arrogance hubris Chutzpah as our Jewish friends would say If he knew how much weight I pulled in the community he'd buy me dinner Paul It doesn't look like you need anybody to buy you dinner. It looks like you need to hit a treadmill And so this is this is a this is a pastor in Coeur d'Alene Who has been fomenting a group of people who get together regularly which we know now from text messages are released from uh The former volunteer coordinator from the KCRCC Nina Beasley That there is a group of people that has been getting together and orchestrating and coordinating and planning and doing things

00:26

for Israel Because they believe that they're god's chosen people They believe that America needs to help this foreign country and give our money our treasure our blood for this country in the middle east That has spied on us attacked us Murdered American civilians that operate criminal networks All throughout the united states. This is something new that we've found out From the American conservative magazine the FBI uses a secret threat category for Israeli criminals who operate in the united states The article goes on to talk about all of these organized crime syndicates Israeli-based organized crime syndicates that are operating in the united states, you know, and I read things like this and it makes me wonder

00:27

if Maybe they're up here Maybe they're here in Idaho Maybe There's a reason why People at candlelight church are so feverish With their push to get their politicians in office To appoint new police chiefs in Coeur d'Alene and Post Falls Why they keep the sheriff here Bob Norris on a leash Is it because maybe i-90 is a major human trafficking hub? Is it because a lot of drugs And children and people flow right through Coeur d'Alene on i-90? Or maybe it's because there's drugs and children and bootlegging going on From Canada and it's coming down route 95

00:28

Into Coeur d'Alene and then on to i-90 to take it to Chicago or to Seattle Maybe that's what's going on Maybe that's what these people are worried about protecting. I don't know Frankly, I started looking into some of this stuff and it scared the living shit out of me Because there's been a lot of that going on There's a movie made called kid cannabis A couple decades ago about a guy here in Coeur d'Alene who got caught selling weed They had Ron Pearlman the actor and by the way Epstein associate in the movie Playing an Israeli spy named Barry learner Who bought weed from this kid in Coeur d'Alene? It's odd Go look it up yourself. Go check the Wikipedia. Go watch the movie But the Russian mob is big in Spokane for sure Ukrainian too

00:29

Jewish as well The rat pack used to hang out in Spokane Used to come vacation in Hayden lake Back in the 60s 70s and 80s. That's kind of who Was on the ground of making this place popular back in the day Bing Crosby There's some connections there between Bing Crosby

and some of the powerful families the real estate families here in north Idaho We'll get into that some other time The point is that there's an election coming up in a couple of days And these people the candle later feverish. They're feverish about who they're going to get in and they want Dan Gookin this pro gay pro hate speech pro israel Fat weird guy with a lesbian haircut And just two years ago all of these people Stephanie Fetzner Erin Bernard Nina Beasley All of them lucky They were all against Dan Gookin

00:30

Because dan Gookin hated Christians There's like no way around it like He hates Christians He referred once to He referred once to The prayer before city council But before the city council meetings as three minutes of wasted time And his YouTube channel was full of these videos Of him going on unhinged rants. I'll play one for you now They don't give a And they all I'm a bible believe in Christian I believe in Jesus and it guides my life as a Christian conservative. So Christian family values Christian conservative mindless cult member group thinking morons. Are you a pussy?

00:31

You're a pussy Christians they tend to be the rudest most disrespectful jerks. I have ever seen I seriously think if Jesus were here today, he would have a message for everyone who's a Christian and he would just say Get the f*** those racists and white supremacists gay I felt really gay last night to come over for a gay time really gay Christian nationalism now, but let's cut right to the chase. It's white Nationalism real hardcore Christians and Christians. You get the idea. Okay, you get the idea. This is Dan Gookin. This is who he is. This is the kind of stuff that he used to put on his YouTube channel before He cozied up with pastor Paul van noy and candlelight and all of these people And now Every one of them stepping up to bat Art Macomber endorsed this guy by the way For those of you in our community, some of these names will mean something for those of you that are listening from afar It might not mean that much just hang in there. We'll get to some actionable stuff soon. Don't worry, but

00:32

This is who this Christian church is I mean, I think it's hysterical I don't I don't understand how stupid You'd have to be To be able to let this guy Pull a fast one on you and pretend like he converted. I'm gonna go to church now After I've spent years working with the gays the trannies The human rights education institute And now all of a sudden I'm showing up at Paul van noy's church And it's all fine And everybody just falls in line It astounds me That this Is where they're at Now there is something else that's interesting

00:33

And that is I mentioned that there was a connection Between dan guken and the human rights education institute that'll the the whole human rights education institute thing Is going to have to be a separate episode. I wrote an article about them a while ago a couple of years ago Uh, I'll pull it up on the screen Oh, it doesn't let me do it. It doesn't let me do it on if you go on your cell phone and you look Uh, I wrote an article about is the human rights education institute a front for foreign intelligence because a lot of the money That was used to start the hre I came from Israel And it came from Israel through a stock deal with Greg car. We talked about this in the 9 11 episode a little bit But something else that's interesting That I think is worth noting in this episode is the fact that Janet Lasiter the executive

director of the human rights education institute Has said that she associates with as many candlelight people as I do at NIC

00:34

With as many law enforcement as I do in the regular community members I have board members that walk both sides of the political line And this woman of course is the executive director the human rights education institute Which hosts CDA for pride it hosted the transgender people in the park you can see On the board is Sarah lynch the leader of the gay pride group here in Coeur d'Alene And so these are the people involved in candlelight church People without principles People who are okay with the murder of women and children and babies people who are okay with endorsing people like dan guken for mayor and You know over the course of the last several days Everything has been heating up. We've seen it We've seen it heat up because of

00:35

The cops getting called on us but also because of nick Fuentes And how nick Fuentes was interviewed by tucker Carlson It was a watershed moment. It was something that the pro-Israel crowd has been trying to prevent from happening for years almost a decade now since A young 18-year-old nick Fuentes was cancelled by Casey Dylan and the daily wire And he explained all of that on tucker And this has really ignited a civil war in the GOP It's America first versus Israel first it's Christ the king versus Judeo-Christian And it's free speech versus cancel culture and this has

00:36

Come into the spotlight More clear now than it ever has before and It's had a profound impact Nationally as well as locally locally. Here's what's been going on People down south Guy by the name of mark Eaton Who is a I believe a legislative district chair down in canning county He said antisemitism must be addressed within American churches. It's quickly growing and needs to be stopped I quoted the bible one Thessalonians 2 14 through 16 and said read your bible mark and he comes out and says You need to get away from worshiping pope pious the tenth Never ever deny god's chosen people Don't deny god's chosen people is what he says And so I said back to him you didn't address the scripture I referenced are you saying saint Paul is a liar or wrong in what he wrote In one Thessalonians And he said it's quite obvious from your comments that you are indeed an antisemite not fit to be in the republican party Your days as such may be limited. There are some serious changes being considered that may allow the party to expel folks like you

00:37

And what he's talking about Is Rule changes he wants to change the rule of law Rules of the Idaho republican party they tried it a year and a half ago And I led a coalition of people to get it defeated and it was defeated Thanks to people like Nina Beasley who helped She's changed her stance. She's gone crazy In the past year don't know what the heck happened to her. She used to babysit my kids. That was a mistake But the point is they're going to do a rule change They want to make it so that as a part of the Idaho republican party platform that if you don't support Israel You aren't a real republican and they will be able to kick you out of the party if you don't vote to support Israel

00:38

They want complete Totalitarian uniformity in their control of American politics That's what's coming And how are they going to do it? Well In 198 days There is going to be something called a precinct committee election. We're going to get into this a little bit more later But the precinct committee election Is where every precinct in the state they they they work their way up They matriculate up and they form this the county central committees the counter county central committees form regional committees the regional committees form the Idaho republican state central committee And these committees these precinct committee officers, which are elected positions Vote on who will go to the

00:39

GOP convention, which will be held in 2026 and at that convention They will vote on rules and the platform Of the republican party which will set the tone for the next two years Of the republican party in Idaho and this happens in every single state. There are Hundreds of thousands of precinct committee positions across the united states And most of them are empty You heard me, right empty 30 40 percent Across Kansas, Oklahoma, Texas those sparsely populated flyover states People just don't show up and that's why we lose frankly Because it's a minority a very highly motivated minority of people

00:40

Who show up And they have money and they control the party because we Don't vote because we sit on our asses And we complain Without trying to do anything to change it Now that doesn't mean that even if we try that You know, this isn't uh, I don't want to get into that argument about the difference of reform versus revolution We've been talking about that. That's been a big theme on our show But this is a legal valid free speech issue That we should be getting in on Every single person that listens to this podcast should know who their precinct committee officer is Should be able to identify whether or not they are a Zionist and if they are they should be working on getting rid of them Anywhere you are in the country this applies. I don't care if you're in Chicago or main or new York city or Florida

00:41

These precinct committee positions are everywhere and you do have a representative in the republican party And you can find out who they are you can call them up you can quiz them And if you don't like the answers that they give you can primary them in 198 days On may 19th 2026 So you got to pay attention And you got to vote local I'm not trying to get you to go out and cheer lead for Donald trump or the presidency or to Donate money to PACs or to the republican party save your money You'll need it But what we do need is good people who have their heads on straight running for these precinct positions Because if we don't have good people with their heads on straight running for these precinct positions They are going to be taken over by people from candlelight And it doesn't matter that candlelight is a church in Coeur d'Alene. There are candlelight's in every county across the country And their people are all being told the exact same thing about the woke right

00:42

And about these Israel haters and these antisemites and groypers And they are being hopped up on Israeli propaganda to go out And commit acts of violence To report people to the police To report people to the FBI That's what's going on and so You know, this is this is

what happens when you consume this kind of Israeli propaganda Right, you get people like josh hammer calling for nick Fuentes and tucker to be neutralized While people in your local area like in my example Stephanie Fetzner is calling for me and blonde

00:43

And our friends To be rooted out of the community That we have no place in north Idaho Oh really Well, I'm not going anywhere And neither is Rebecca And everybody around us sees what you're doing And the more that these pro-Israel people freak out The more apparent it becomes To everyone else in the nation And so just today Of course I'm recording this at 125 a.m. Sunday morning But on Saturday mark levin and several other people address the republican Jewish coalition

00:44

Talking about what they would do To people Who don't support Israel. Let's take a listen To this clip For six months I've been fighting these bastards Whether it's tucker Carlson Or whether it's nick Fuentes And I've been looking over my shoulder looking for a help And you know I found Nothing Nothing We're here today to do something about this What do you mean we don't cancel people? We canceled David duke Donald trump canceled David duke We canceled papu cannon We canceled the john birch society. Oh really we canceled joseph sobran We canceled pornography on tv We canceled stuff all the damn time Hitler admires Stalin admires jew haters

00:45

American haters church hall haters. You're damn right. We're going to cancel them in deep platform them It's called the market system They don't have a lifetime job like a bureaucrat who we're going to protect and if they're your friend There's something wrong with you No Hitler admirer Holocaust denier platformer Should be anybody's friend as a matter of fact Oh really? Well, you know Someone disagrees with that and it's someone significant And that is the head of the heritage foundation Kevin Roberts. Here's the clip I'll have more to say on this in the coming days But today I want to be clear about one thing Christians can critique the state of Israel without being antisemitic and of course antisemitism should be condemned

00:46

My loyalty as a Christian and as an American is to Christ first and to America always When it serves the interest of the united states to cooperate with Israel and other allies We should do so with partnerships on security intelligence and technology But when it doesn't Conservatives should feel no obligation to reflexively support any foreign government No matter how loud the pressure becomes from the globalist class Or from their mouthpieces in Washington The heritage foundation didn't become the intellectual backbone of the conservative movement by canceling our own people Or policing the consciences of Christians And we won't start doing that now We don't take direction from comments on x though We are grateful for the robust free speech debate We also don't take direction from members or donors Though we are inherently grateful for their support And we're adding more every day This is the robust debate we invite with our colleagues our movement friends our members

00:47

and the American public We will always defend truth We will always defend America and we will always defend our friends against the slander of bad actors Who serve someone else's agenda That includes tucker Carlson who remains and as I have said before always will be a close friend of the heritage foundation The venomous coalition attacking him or sowing division Their attempt to cancel him will fail Most importantly the American people expect us to be focusing on our political adversaries on the left Not attacking our friends on the right I disagree with and even at poor things that nick Fuentes says But cancelling him is not the answer either When we disagree with a person's thoughts and opinions we challenge those ideas and debate And we have seen success in this approach as we continue to dismantle the vile ideas of the left

00:48

As my friend vice president Vance said last night What I am not okay with is any country coming before the interest of American citizens And it is important for all of us Assuming we are American citizens to put the interest of our own country first That's where our allegiance lies And that's where it will stay Bravo now, of course Kevin Roberts did kind of take a half step back from this But the amount of screeching that we got From the pro-Israel crowd as he said the venomous coalition Right we saw mark levin freaking out talking about what we cancel people We cancel people all right We cancelled the john birch society Okay Thanks for Thanks for telling us that Later in his speech mark levin jumping back and forth a little bit says that Americans should be thanking Israel check this out

00:49

We have this all wrong Oh, we give Israel three billion dollars a year. Oh, they're a protectorate we Europe people of freedom Jews Christians people believe in liberty around the world We need to thank the Israelis for what they've been doing We need to thank them For using their soldiers to fight an enemy That the rest of the world refused to fight Unbelievable We need to thank them for killing women and children and raping prisoners with a red hot bayonet

00:50

Up their butt Don't mean to be a little Crass here, but that's what's going on That's what mark levin wants us to thank Israel for And then you have people like this guy Speaking at the same coalition this republican Jewish coalition summit Shabbos Kestenbaum Who's literally a democrat? He's a democrat and he's going to go to the republican Jewish coalition to tell republicans Who they should cancel Who they should fight that instead of fighting the left the trannies the lgbt mafia The Clintons the Obamas instead of fighting the left you should fight some kid with a podcast in Chicago tucker Carlson Candace Owens dav riley and Rebecca Hargraves That's who you should be fighting and As republicans we're going to take that

00:51

We're going to let these types of people Get on our central committees and make our policy and make our rules and our platform demanding that the united states goes and fights Israel's wars for another 20 years demanding that we spend our blood and treasure On a spit of desert in the middle east with no resources or strategic importance at all And this to

them is the most important thing and they're willing to Cancel and deplatform and blackmail and extort

00:52

Anybody who gets in their way and they call it a market system? That's what Mark Levin called it earlier today. He called it a market system. Well, I got news for you. That's not free markets. Can you hear me? That's not a free market. That's gangsterism. That is totalitarianism. It's Jewish totalitarianism. It is anti-christ totalitarianism. That's what that is. And these are the people that for the most part already make up most of the republican party and that's why this election on May 19th is interesting. Because if enough people woke up to this and if enough people ran for precinct committee officers

00:53

Maybe for once in a very long time we could reconstitute a republican party in the image and likeness of the American people. As opposed to the image and likeness of Mark Levin. Of Ben Shapiro. Shabbos Kestenbaum. The people at candlelight. Wouldn't that be like a novel idea? To I don't know have a party that is made up of people that want to put America first. People that care about the plight of the middle class working white man in this country. Isn't that interesting? And so that's the pitch. That's what I want to talk about. There's this republican civil war brewing. And we're we've seen the cracks of it

00:54

We know where this is going to go locally. That's easy to see. Candlelight Christian fellowship the Zionist church is going to team up with a group called the north Idaho republicans. Which is a group led by the daughter of an FBI agent. Former FBI agent Wane Manis the guy who pulled Randy Weaver off the mountain in the early 1990s and put him in handcuffs and took him to jail. That guy's daughter is the leader of this republican faction. The establishment republicans as we would call them. And they're going to team up with these Zionist republicans to take out anybody on the central committee who is catholic? Or who wants to put America first? Because remember to these people Catholicism equals antisemitism and antisemitism is anti-Americanism

00:55

And essentially you are tantamount to a Hamas terrorist if you're catholic. That's what they told Hendrick Mills. One of the people on the central committee up here. Sorry for all the name dropping by the way. I know that most of you don't live up here. You're not into the local lore. But there are a few people up here that do listen to this podcast and they've been asking they've been curious what's going on. So I figured I'd drop a couple names. But this is this is what's going on. This is the republican civil war and there is an opportunity. For those of us that are awake to these problems that see where this country is headed off a cliff by the way. And want to do something about it. Right, it's one thing to be able to get prepared. By gold by silver by bitcoin, right? You have a family. You're educating them properly. You're not sending them to public school

00:56

You're homeschooling your private schooling. Right, you're working out your parallel economy. Job making money independent of the system. But what else can you do? Well, this is what you can do. You can run for precinct committee officer. In every single precinct

across the united states, there are probably over a hundred thousand of these positions That will be open for you to take And all that it requires is that You go and knock on your neighbor's doors and have a conversation Knock knock. Hi. How are you? I'm your neighbor. I live right up the street Do you have a minute to talk politics? You know and either you get the door slammed in your face or you get somebody that wants to talk with you

00:57

And you feel them out Where are they at? Do you do you like where the country's headed? Do you like what's been going on in the republican party? Do you support Israel? Oh, you don't Me neither Well, here's what's going on and explain to them that you're running To put America first And to put your county first to put your precinct first to put your people first You can do that. There's literally nothing stopping you. You don't have to Join a radical movement You don't have to spend a lot of money You need maybe five signatures to get on a ballot or 50 dollars depending on where you live It is not that big of a hurdle And the best part is you get to Meet people along the way you get to meet your neighbors. You get to make friends You get to influence people. It's a good book by the way making friends and influencing people You should probably read it and in doing this exercise of knocking on your neighbor's doors getting to know them

00:58

Feeling them out seeing where they are you are building a network You're building a network that will benefit you and your family in the case of a disaster or a crisis In the case of a collapse of the American way of life You'll at least know who lives around you who you can trust who you can work with That's helpful Maybe you'll find a future business partner or something. I don't know But it's definitely not futile To do that to know who your neighbors are It's not a bad idea It's not an extremist thing to do It's actually a normal thing It'll help social cohesion to know who the hell you're living around because a lot of us have moved

00:59

Because there's been a lot of displacement in this country because of the mass immigration that has been unrelenting for the past 20 years I've moved 27 times myself I'm sure a lot of you have moved a lot over the years as well The neighborhoods we grew up in as kids Aren't the same neighborhoods anymore Because the people aren't the same people anymore Everyone knows that so I'm not trying to get you to become a republican shill Okay, I am not trying to get you to donate your money to the republican party. We're to Donald trump We're to jd Vance What I'm saying is that you should be the change in the republican party that you want to see

01:00

Pretty simple And if you have a problem with that then let me know in the comments as I'm sure you will There's going to be a lot of people that have a problem with that. I don't know why I don't get it Some people are just defeatist, you know the jews control everything and there's nothing we could do As if they haven't been kicked out of 109 countries over a thousand times. Okay. Sure. There's nothing we can do got it Black pilling I'm not a black pillar. Now Cameron, you know, he thinks that change is going to come from the top down And I think that that's necessary But I like with this conversation about revolution and

reform and both happening simultaneously Not to the exclusion one of the other Like in Cuba, I don't know if you if you've studied the Cuban revolution with Castro But they had a revolutionary movement

01:01

Coupled with civic activism And that Is what produced change in Cuba now we can argue about whether the change was good or bad I'm not here to talk about that Not a communist But it produced social change And we want also to produce social change in this country To get back to Christ the king to get back to law and order to get back to a country of by and for the people The people that founded this country and so Just as there is this dichotomy between revolution and reform there's a dichotomy between Change coming from the top down and the bottom up at the same time I think that they're linked. I don't think that one needs to be focused on to the exclusion of the other I think that in order to make this country right again That it's going to take all of us People operating at the highest levels people operating at the neighborhood levels

01:02

It is going to take everyone working together as one as a collective To put America first That's what is needed One person can't move this ship of a country It's too big. There are too many parts. There's too many people It's going to take hundreds of thousands of all of us Working together like our lives depend on it to make change happen And if we don't make that change happen, then we will cease to exist as a nation Full stop And it's not just America. I don't know how things go in Europe I don't know how their political party structure works I don't know how the afd is made I know that they rely a lot more on third parties over there

01:03

They have a different kind of democratic system than we have over here We're stuck with this bullshit two-party system and in Idaho for example, we're basically a one-party state 70 percent of the state is Idaho 70 percent of the state is republican So you you have to be a republican To enact any kind of law or change in Idaho. That's different in different states. Some states are blue. Some states are purple 50 50 swing states But in Idaho if you want to make a difference run for governor run for legislature All of these things you're gonna have to do it as a republican And if the Zionists take over the republican party and prevent anyone who was America first From being able to participate then we are guaranteed to have a system run by Zionists For the benefit of a foreign country

01:04

Not for our benefit That's what I'm trying to drive home here So mark that date in your calendars March 19th It's going to be a big deal And just to drive it home. I did spend like three seconds making The dumbest the dumbest exploiter chart But I'll show you here You've got Your county your county is divided into precincts Each precinct gets one representative A precinct committee officer Those precinct committee officers are elected in On the ballot And they come together to form the county central committee The county central committees from all across the state or the region anyway, they form a regional committee

01:05

And then They form the state committee And then each state committee goes To the national GOP convention Where they vote on who runs the GOP It's a huge machine It's a machine And yeah, it's designed to chew up and spit out people like us I get it And not every state has elected precinct committee officers. I know in Nevada for example That's not how it works. They don't go on the ballot. I don't know how that system works But for the majority of states that do have elected precinct officers, this is how the structure works And there is nothing between you and getting on there Getting on those committees and making your voice heard

01:06

Making the arguments making a convincing emotional argument to other precinct committee officers For why we shouldn't support Israel to our detriment Hello Bueller So anyway, that's my idea. That's my big idea that I'm bringing to the table here. I want to contribute I want to see our country pull up. I don't want Our country To fall apart. I've got three kids. I'm going to have more I want them to grow up in a country where they have a future As I'm sure you do for your kids and your grandkids And so this bitching and complaining without doing anything Hasn't been working granted. We've been spreading the gospel if you will spreading the bad news Of what has happened to our country millions of people are waking up

01:07

Thanks to the talker Carlson nick Fuentes interview. Thanks to the Years and decades of activism of people from the right who have been ringing the alarm bells on this And by the way it has been decades All the way back to to world war two people have been ringing the alarm bells about this the john birch society was right there But that that's another story they got subverted very early on Because we're not allowed to have nice things in this country So that's it. That's my plan march 19th run for precinct committee officer. You should do it I would encourage you to look into it find out who your pc is Find out who your representatives are Because there is a civil war in the GOP right now And we should be taking up arms Rhetorical arms and fighting in it Because The future of our country is at stake

01:08

By the way, the same structure in all of this applies to the democrats as well But those people hate us They want Unrelenting streams of third world immigration They don't understand economics. They're stupid so I don't I just don't see a viable option with the the democrats or even an alliance with these people They hate us So that's it. That's what I've got for you. There is an election also coming up on uh, November 4th I believe November 4th is Tuesday So if you can make sure that you vote in your local election know who you're voting for don't vote for a Zionist douche Do some research while you can vote for the right people And pray for this country. It's uh the beginning of November

01:09

As a catholic, you know, we go through this all saints and all souls thing Where we commemorate all of the saints that have given their blood given their lives for the truth for the church for their people for their posterity Because that's what a martyr is they're dying

for the truth and We need their help and so we pray for them. We pray to them. We pray for them All the people that have come before us our ancestors are forefathers And so uh do that, you know, we'll be visiting a uh a cemetery Coming up for a few days praying the rosary. It's a good thing to do Anyway, please make sure you like and subscribe To our podcast the backlash we will be back on Monday with Emily ukis the the amazing illustrator and creator of the will Stancil show
