**THE STATE OF HATE IN THE U.S. AND
COLORADO: PRESENTED BY,
JEREMY SHAVER & JESSICA REAVES.**

The face of hate in America is changing. The belief that the white race is in danger of extinction is fueling the resurgence of the white supremacist movement. This session will look at major trends in extremist activity in Colorado and the nation, including white supremacist propaganda and rallies, hate crimes and extremist-related murders. In addition, the session will highlight the connections between potentially violent misogynist groups and white supremacists. The Anti-Defamation League was founded in 1913 to stop the defamation of the Jewish people and to secure justice and fair treatment to all. Today it is the world's leading organization combating anti-Semitism, exposing hate groups, training law enforcement on hate crimes, developing anti-bias curricula for students, countering cyber-hate and relentlessly pursuing equal rights for all.

Jessica Reaves is a former staff reporter for the Chicago Tribune and TIME.com. Jessica joined ADL's Center on Extremism (COE) in 2014. Jessica also monitors and writes about misogyny within the white supremacist movement, with a particular focus on the alt right.

Jeremy Shaver is a Senior Associate Regional Director for the Anti-Defamation League's Mountain States Region. He oversees ADL's local civil rights, government affairs and advocacy, institutional security and law enforcement training programs.

**INTENTION IN THE SCREEN TRADE:
 PRESENTED BY, SCOTT GAREN.**

Filmmaker / Storyteller / Entrepreneur Scott Garen will tell stories about his experiences in the upper-echelon screen-trade of film and television in Hollywood, focusing on "intention" and the deeper themes that informed his life and career. Scott will screen A Thousand Roads - the signature film he made for the Smithsonian's Nat'l. Museum of the American Indian in start and stop segments to accompany and illustrate the themes of his talk. Scott Garen is a highly accom-

plished filmmaker, producer and entrepreneur whose production companies have produced and launched award-winning film and television programming with a singular style and depth for all the major broadcast networks - ABC, NBC, CBS - as well as Columbia Studios, Disney, Channel One and the Smithsonian Institution. I like to make films that explore the human condition - the deeper resonances of our experience as human beings on this planet at this extraordinary time.

A Thousand Roads is a widescreen docudrama that weaves the stories of four Native Americans within the spiritual matrix of indigenous people. Lensed by Academy Award winning cinematographer Claudio Miranda (Life of Pi) and scored by Academy Award Winning composer Lisa Gerrard (Gladiator), Scott also brought in acclaimed Native American director Chris Eyre (Smoke Signals) and renowned Native American poet (and newly anointed "Poet Laureate" of the U.S.) Joy Harjo - who collaborated closely with him to craft a 40-minute prayer to Indian Country - a destination film that runs in the museum's surround-sound theater.

**COLORFUL COLORADANS: THE TABORS:
 PRESENTED BY, PATTY MAHER.**

If you are a Colorado resident you have no doubt heard about the Tabors — H.A.W. Tabor and his first wife Augusta who helped him build their life, family and fortune and Baby Doe, the second wife who spirited Tabor away from wife and family after he had hit it rich in Colorado mining. But there is so much more to the story! Come hear about the early days of the Pikes Peak Gold Rush and the many characters the Tabors encountered in their own search for financial security. Learn how a good hearted man went from town hero to town chump. Explore how the politics of the 1880s have not changed much in the past 140 years — the users, the losers and the ones who always seem to be at the top. We'll visit the mysterious ways of the human condition: those who felt guilty for hitting it rich and wanted to flee to those who took advantage of the generosity of others, and of the shameless promotion of one's name, to the remarkable resilience of the human spirit that could survive unimaginable hardships. Plus, what became of the Tabor children?

THE PROGRAM WILL LEAVE YOU WITH A PEEK INTO COLORADO'S HISTORY AND NO DOUBT A FEW GOOD STORES TO SHARE.

LUDWIG VAN BEETHOVEN: 250 YEARS LATER:
PRESENTED BY, BETSY SCHWARM.

2020 brings the 250th anniversary of the birth of the mighty Ludwig van Beethoven (December 16, 1770 – March 26, 1827). Admittedly, he wasn't the only great composer to have ever lived, but certainly his is

one of the dominant figures on any such list; his name and his music are splendidly familiar, even to those who might not be regular classical music listeners. With such an important musical anniversary in the offing, Denver Eclectics has invited Denver music scholar and public speaker Betsy Schwarm to provide perspectives on the man and his music. She'll read from her 2015 book *Classical Music Insights: Getting to Know Ludwig* and will share musical excerpts relating to the chosen material. Beethoven himself will have a word in the discussion, too, thanks to selections from his letters. Betsy will also share information about upcoming Beethoven-related concerts in the area, notably the Colorado Symphony's performances February 21st -23rd of the master's *Missa solemnis*.

BEAUTY, NEUROSCIENCE AND ARCHITECTURE: TIMELESS PATTERNS AND THEIR IMPACT ON OUR WELL-BEING:
PRESENTED BY, DONALD H. RUGGLES.

The book by the same title postulates that beauty can and does make a vital

difference in our lives, including improving many aspects of our health. In his presentation, Mr. Ruggles suggests that a new, urgent effort is needed to refocus the direction of architecture and art to include the quality of beauty as a fundamental, overarching theme in two of humanity's most important fields of endeavor—the built and artistic environments. During the past two years, Mr. Ruggles has been traveling the U.S. and Europe giving presentations on his first book, "Beauty, Neuroscience & Architecture: Timeless Patterns & Their Impact on Our Well-Being," which suggests beauty can and does make a difference in our lives, including improving many aspects of our health. His book has received a Bronze Medal in the Independent Publishers Book Awards (IPPY) and the ICAA Rocky Mountain Chapter Robert & Judi Newman Award for Literature and Journalism.

FAKE NEWS: PRESENTED BY, MAGGIE FARLEY.

How do we know what to believe? Now with so many sources of information, we can no longer assume that most information is verified and reliable. Is that item your Facebook friend sent you true? And is that Facebook friend really your friend? Politicians, advertisers and even foreign agents have figured out how to manipulate information for profit and political influence. Former Los Angeles Times correspondent Maggie Farley looks at how our brains are wired to like false news, how it spreads so quickly, and how not to be the one who spreads it. The talk includes a quick introduction to tools that filter false news and ways to check

out information that seems suspect. Maggie Farley is a Denver native and attended Manual and East High Schools. She has taught writing at American University, in Washington DC and did a two-year fellowship there exploring the intersection of technology, journalism and engagement design. She spent a month in Asia in 2018 speaking about media literacy in a digital age for the State Department's International Speakers' Program. You can play her media literacy game "Factitious" at FactitiousGame.com.

GETTING CLOSER: THE LATEST IN THE JOURNEY TOWARDS A CURE FOR ALZHEIMER'S: PRESENTED BY DR. HUNTINGTON POTTER.

Today we will gain insight into the fight for a cure and raise awareness of Alzheimer's and its many effects it has on our society. Dr. Huntington Potter, who came to Denver in July 12, 2012 at the CU School of Medicine, Alzheimer's Disease Program will give an up-to-date report about the facts and outlook into this disease. Dr. Potter was quoted in a recent article by The Denver Post regarding research with mice with Alzheimer's disease, using the same protein contained in Leukine cleared amyloid debris from the brain reverses memory

loss. Given the many failures that have occurred, including drugs that showed promising results in mice, "This is really a completely different approach than anything that has been tried before," said Huntington Potter, director of the Rocky Mountain center, which is part of the University of Colorado. "It is one approach of many, and we're hopeful. But science will tell." All of us hope the research brings some breakthroughs as a new person is diagnosed with Alzheimer's disease every 70 seconds. **LULU WANG'S THE FAREWELL:
PRESENTED BY, GREGORY ROBBINS.**

For moviegoers, whether they grew up with The Philadelphia Story (1940), The Godfather (1972) or Rachel Getting Married (2008), the gathering of a clan is scarcely untrodden ground. More unusual, in The Farewell, is the need for collective deceit. Ostensibly, the wing of the family that has immigrated to the USA returns to Changchun (in northeastern China) to celebrate the nuptials of a cousin and his semi-silent Japanese fiancée. In fact, the family convenes to mourn preemptively for its beloved matriarch, Nai Nai. She has been diagnosed with terminal cancer, but the diagnosis and her impending death has been concealed from her. In some ways, despite the valedictory title, The Farewell is one big hello, stuffed to the gills with cooking and eating, and crowned with a marriage feast for scores of guests.

THE FILM IS COMPACT, COOLLY HEARTWARMING, AND GRATIFYINGLY UN-CUTE. BE GRATEFUL WE SHALL BE EATING DINNER, OTHERWISE THE FILM WOULD LEAVE US STARVING!

**THE CHANGING WORLD OF ANIMAL WELFARE:
PRESENTED BY, DR. APRYLE STEELE.**

The role that pets hold in our families and our communities has evolved, and thus the role of animal welfare advocates has changed. This change has created much improved outcomes for our furry friends. It has also created an economic opportunity for some who value profit over welfare. Dr. Apryl Steele will discuss the complex and fascinating world of animal welfare, with a concentration on what is happening in Colorado. Dr. Apryl Steele is the President and CEO of the Dumb Friends League in Denver, CO. After practicing veterinary medicine for 18 years, she had the honor of joining the League to advocate for animals who are vulnerable due to homelessness, mistreatment, or their owner's financial situation.

Since becoming the CEO in 2018, she has overseen expansion of the League's impact to include a veterinary hospital that provides subsidized veterinary care to underserved pet caregivers, led a \$40 million shelter renovation.

THE PROGRESSIVE FAITH MOVEMENT: RECLAIMING VALUES IN THE PUBLIC SQUARE: PRESENTED BY, SHEILA GREEVE DAVANEY.

This presentation will examine the re-emergence of a progressive, multi-faith movement in the 21st Century. It will attend especially to the role of this movement in the current context of political and social upheaval. As we enter a Presidential election year, it is important to ask who are the "values voters" in 2020, what are the issues that are compelling activism in the public square and what role is a re-energized progressive faith movement playing. Sheila Greeve Davaney is the Harvey H. Potthoff Professor of Theology Emerita at Iliff School of Theology. She taught Modern Western Thought at Iliff from 1980-2007. From 2007-2011 she was the Program Officer for Religion and Public Life at the Ford Foundation. In 2012, she was a Distinguished Visiting Professor at Union Theological Seminary in New York and from 2012-2015, Davaney was a Senior Visiting Fellow at the Center for American Progress in Washington, DC. She is the author or editor of eleven volumes and over forty academic articles. She is now retired and lives in Denver, Colorado.

HONORING THE DOUGHBOYS: FOLLOWING MY GRANDFATHER'S WORLD WAR I DIARY
PRESENTED BY, JEFF LOWDERMILK.

Jeffrey Lowdermilk's slide-show presentation is based on his book, *Honoring The Doughboys: Following My Grandfather's World War I Diary*. It is a stunning presentation of contemporary photographs taken by the author and paired with diary entries written by his Denver born grandfather, George A. Carlson, who was a soldier in the U.S. Army during World War I. Lowdermilk followed his grandfather's path through France, Belgium, Luxembourg, and Germany, and returned with these meticulously crafted photographs, as

well as his own engaging stories that bring the diary to life. This image-rich tour of European landscapes, battlefields, and monuments offers an experience that is at once an intimate reliving of Carlson's time as a doughboy, a lively collection of Lowdermilk's travel anecdotes, and a moving expression of gratitude to American veterans of the Great War. Through the years, he has given his presentation many times including: History Colorado, Colorado Academy, New Mexico History Museum, Missouri History Museum, New Mexico National Guard – both Army and Air Force, multiple Veteran's Groups, and several times in France.

HIS BOOK WILL BE AVAILABLE AT THE PROGRAM.

If you can't fly then run, if you can't run then walk, if you can't walk then crawl, but whatever you do you have to keep moving forward."
