## **SOLAR ALL NEW ENERGY**

SolarAll New Energy Corporation was founded in 2007 and is one of the leading solar power system in the area. It positions itself to be a greener alternative provider of energy requirements for residential and commercial establishments. We give our strong commitment to **RELIABLE QUALITY**, **REASONABLE PRICE**, and **PROFESSIONAL SERVICE** by bringing to each home office and business, Total Solar Power Solutions with the most Advanced Technology.

The Solarall new energy engineering team provides supervisory control and data acquisition (SCADA) system integration tailored to the exact needs of any manufacturer. These modern systems allow for exacting control and monitoring of industrial processes either on-site or remotely. SCADA systems are effective for multiple industries, including thermal processing, manufacturing, pharmaceutical, food and dairy, water and wastewater, among others.

We deliver the best solutions because our process starts with an engineering evaluation of your current SCADA system. We then offer recommendations that will enable you to achieve your goals and optimize performance.

## **OUR MOTHER COMPANY**

NICEAYE New Energy Technology Co., Limited specializes in developing and manufacturing customized solar power generation, LED lighting systems, traffic lighting systems, and so on.

At NICEAYE New Energy, we specialize in solar power systems, portable power stations, solar street lights, traffic lighting systems, and other series of new energy projects. We could design kinds of solar power systems according to the demands of customers, including solar Off-grid/Grid-connected solutions.

Our factories are in Shenzhen and Zhongshan in China.

We combine the needs of the customers' markets and unite with professional teams to customize and develop solar energy, LED lighting, and traffic system for customers, helping our customers to win market competitiveness.

In order to better serve the Philippine market and customers, we set up a branch SolarAll in the Philippines to provide all kinds of customized solar engineering projects. From the project design, technical services, and installation to after-sales sales, they are recognized and praised by our customers.

# Company Mission

---

Our mission is to provide sustainable, affordable, and reliable solar energy solutions that empower communities and businesses to reduce their carbon footprint, lower energy costs, and embrace clean energy for a brighter, greener future. We are committed to driving the global transition to renewable energy by delivering innovative solar technology and exceptional customer service.

# Company Vision

---

Our vision is to be a global leader in renewable energy innovation, paving the way for a world powered by clean, renewable energy. We aim to inspire positive environmental change by making solar power accessible to everyone, fostering energy independence, and creating a sustainable future for generations to come.
