This is Tabby Cat. He is the average
cat - nothing incredible about him.
He is very gentle and brave,
but also very kind

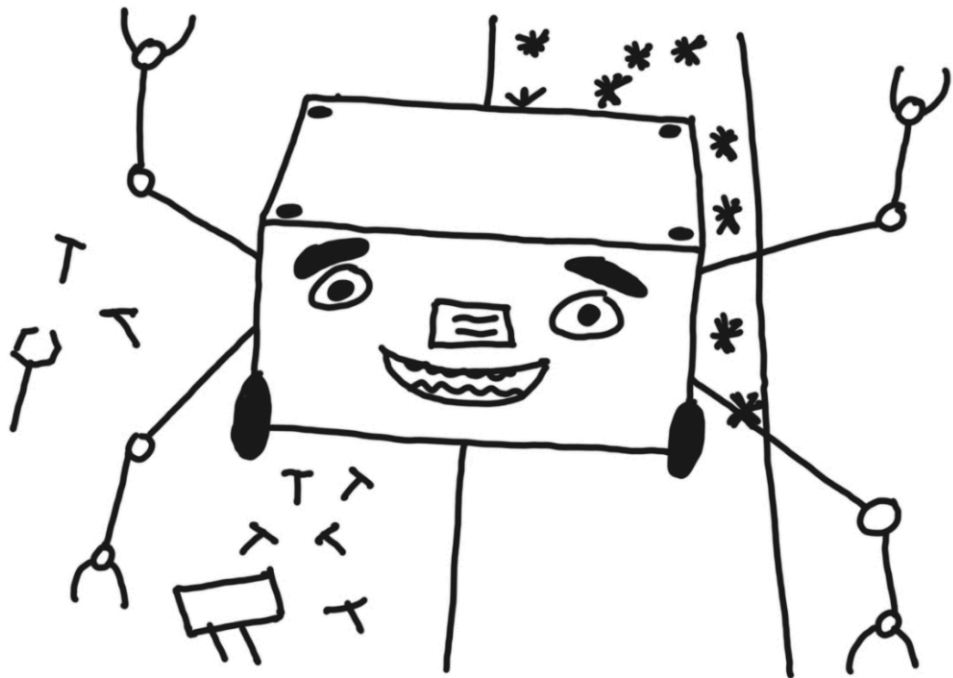

The world has a problem -
plastic. It's everywhere - on
the streets, on buildings
and in the park

One day, Tabby, Cat was watching Wall-E and got an idea - trash collecting robots.

The idea is brilliant - they will collect rubbish, 'eat' it, and take it to a recycling area. Plus, it can print fines for those caught littering.

Everyone is happy! Tabby
has saved them! Now, there
is no litter, and that is how
it shall always be!
