ons

Enter the year in the header

Choose a start day (1 = Sunday, 2 = Monday) in the header

Edit the Title and Sub-Title at the top of the Calendar

Add events for each month. Enter dates in a standard date format in column J.

For each event, choose an event type from the drop-down box if you want the event to be highlighted, or leave column L blank to avoid highlighting.

ting by Event Type

You can highlight dates by choosing an Event Type in column L. The colors are controlled using conditional formatting.

To change labels for the event types, edit the cells listed under "Event Type Labels." Do not leave any of these cells blank.

If you add or remove rows, or modify the column widths, you may need to adjust the print area and page breaks.

To change the page breaks, go to View > Page Break Preview.

To change the Print Area, select the cells you want to print and go to Page Layout > Print Area > Set Print Area.

For convenience, some holidays have been included in the template. You do not need to use these, and if you want to add other holidays, you can enter the dates manually after looking them up on the internet.
