GLIMPSE *of* BEAUTY

Where true beauty begins!

A Glimpse of Beauty's exceptional products are inspired by nature's best gifts to your skin. We want you to experience the best of what we know and are about to discover.

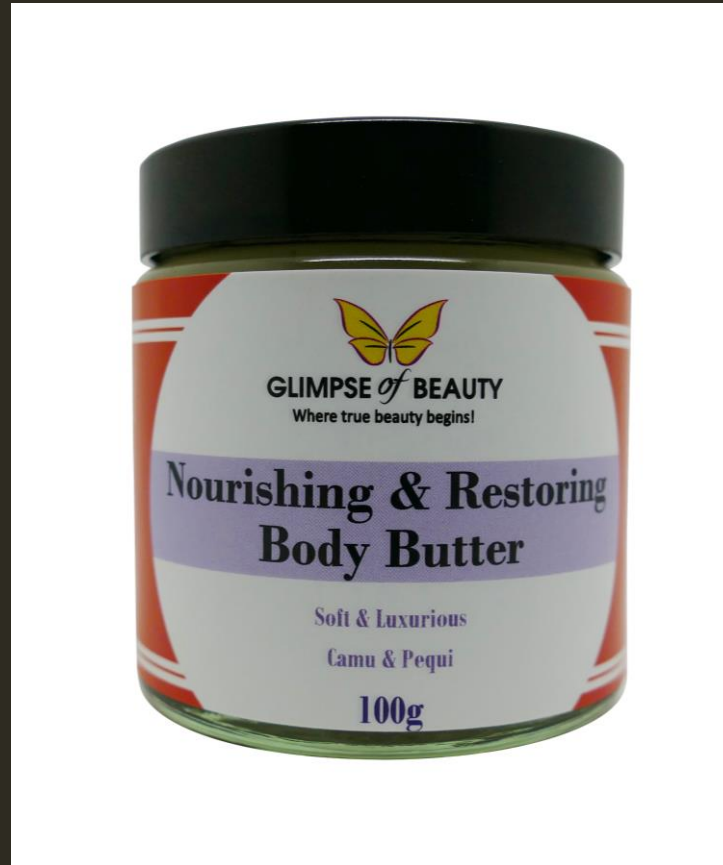

THE TRUTH ABOUT OUR PRODUCTS

We introduce the latest products in holistic skin care with nourishing and unique formulas. These are handmade from some of the rarest, finest, and most natural ingredients from all around the world. To ensure that you are getting the best quality and **chemical free skin care**, we prefer to use **organic, unrefined plant based ingredients** which are purchased directly from the producer thus guaranteeing the freshest natural material for our formulations.

With Our **holistic approach** to skin care our products maintain the **natural colours, textures and scents of the plants** which are the main source of their healing properties. We insure that our active/main ingredients remain unprocessed till the final product. This way you skin receives the full benefits of the performing actives.

HOLISTIC SKIN CARE

The best and most beautiful things in the world cannot just be seen. They must be felt.

Our extraordinary products consist of exceptional skin loving ingredients that have amazing benefits for the skin that are rarely found in other skin care products.

These amazing products **consist of vitamins, minerals, phytosterols,** and some very powerful **antioxidants** which fight against the action of free radicals on skin cells. Alongside These are nutrient rich carotenoids and **omega 3,6,7 and 9.**

Here are a few extra ordinary ingredients found in our exotic camu & pequi Body Butter.

These oils are cold pressed from the seed or fruit and remained unrefined until the final product.

SO WHAT'S EXTRAORDINARY?

ALL ABOUT THE BERRIES

Our berry products consist of the Highest (ORAC) antioxidants.

High Orac means -Oxygen Radical Absorbance Capacity

This is determine by a lab test that demonstrates the level and capacity of how free radicals are destroyed by antioxidants found in berries.

Berries are inherently full of nutrient-rich building blocks such as antioxidants, phytochemicals, flavonoids, carotenoids, polyphenols, vitamins, and minerals. These components of berries that are known to be beneficial to the skin, most often used for their anti-inflammatory and antioxidant properties.

The Oleic acid found in berries helps to regenerate skin at the cellular levels and have antioxidant qualities that provide protection from the damaging effects of pollution and UV rays. They are also attributed with helping to transport valuable, bioactive compounds to the outermost layers of the epidermis.
