

TeloYouth® Captured Life in a Capsule

THE REJUVENATION COMPANY

www.TeloYouth.com

TeloYouth™

Foundational Technology

TeloYouth, Inc. is the Rejuvenation Company committed to the best from science and nature. Rejuvenation Technology unlocks the secrets to youth. Our mission is to share these life-changing gifts with the world, providing longer life full of vitality, joy, balance, and freedom.

1929 CANADA

John Ralston Davison MD. discovered the great benefits of Fertilized Tissue Extract™ and completed numerous clinical studies.

1995 NORWAY

Bjodne Eskeland PhD. refined the Fertilized Tissue Extract technology and after 50 years of research and clinical studies, he introduced the technology for commercial use.

2011 USA

Bjodne Eskeland PhD. exports the refined Fertilized Tissue Extract technology of BioActive Peptides to the USA.

2016 USA

TeloYouth was founded using the breakthrough science of signal molecule technology, mediating stress and unlocking rejuvenation.

2019 USA

Dr. Tina and Dr. Chris formulate our Rejuvenation Products. They have over 60 years combined experience in Naturopathy and studied directly with Dr. Eskeland to learn and advance the signal molecule technology.

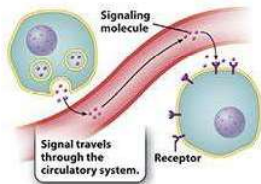

2019 USA

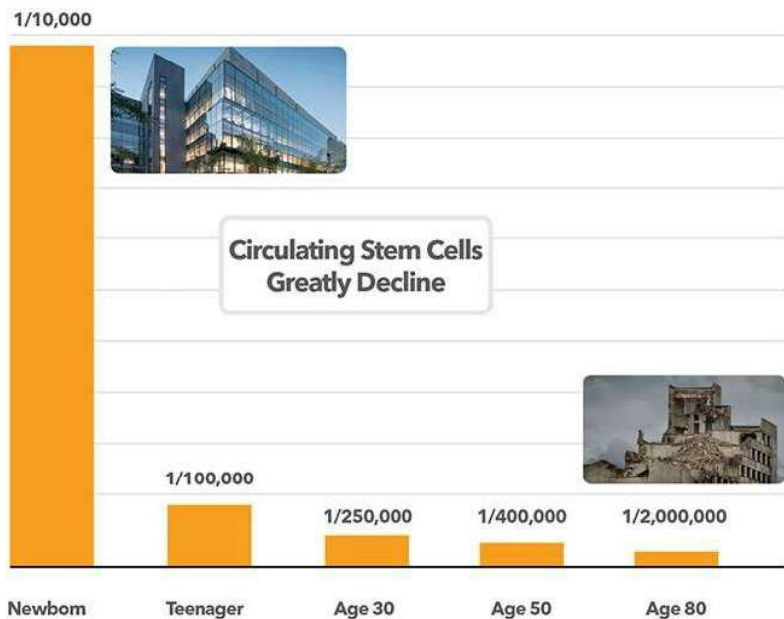

The 3rd Generation of highly concentrated full spectrum BioActive Polysaccharides were added to TeloYouth's formula to enhance cell to cell communication along with other super ingredients.

Stress = Cell Signaling Decline = Accelerated Aging

Stem cells are the root of all rejuvenation. They function like construction workers in the body. Our body over time resembles damaged, deserted buildings collecting debris lacking the ability to rebuild. As we age, all cell signaling declines and as an example the chart depicts the rapid reduction of our stem cells limiting rejuvenation.

That's 200 times fewer stem cells

Resiliency: The Capacity to Handle Stress

YOUTH

- Optimal Cell to Cell Communication = Maximum Resiliency
- Deep Sleep, Happiness, Mental Clarity, Fast Recovery, Energy and Vitality

ACCELERATED AGING

- Stressors trigger the Stress Defense Mode diminishing Resiliency and Healing
- Being stuck in the SDM creates chronic degenerative imbalances
- Pain, Mood, Poor Memory, Digestive Disorders and other Imbalances

Occurs Over Time

TELOYOUTH™ REJUVENATION FACTORS IN ACTION

- Turns off Stress Defense Mode
- Turns on Rejuvenation Mode
- Rebuilds Maximum Resiliency

TeloYouth™ Unlocks the Stress Defense Mode and Activates Rejuvenation

True Rejuvenation in Action

Depression, Knee Pain, Sleep Issues and Low Energy

Hannah age 67

Hannah experienced multiple symptoms with the breakdown of cellular signaling and communication. TeloYouth's Rejuvenation Program replaced the missing letters (reestablished the cell signaling) and Hannah no longer has knee pain, sleep issues or depression. She's living with more energy and vitality. Healthy physical changes on the outside reflect healthy changes on the inside.

DAY 1

RESTORED SIGNALING:

Heart Liver Lungs
Brain Kidneys
Eyes Stomach
Nervous System
Endocrine System
Immune System
Digestive System
Cardiovascular
System

DAY 90

**These photos are not retouched. No make-up used in either picture. Eyebrows and lips are tattooed.*

Highly Concentrated Rejuvenation Signal Molecules - BioActive Peptides

Fertilized Tissue Extract (FTE™)

100% Pure
Norwegian Egg

After **1 Day**
Fertilization

Contains all the letters
of the alphabet for
proper signaling and
communication

PROPER SIGNALING > INSTRUCTIONS:

Heart • Liver • Lungs • Eyes
Brain • Kidneys • Stomach
Central Nervous System
Endocrine System • Immune
System • Digestive System
Cardiovascular System

After **10 Days**
Incubation

Letters become "words"
signaling the body to build
its organs and systems

11th Day
Extraction

Non-species specific
signal molecules
become our super
rejuvenation
ingredient (FTE™)

12-21 Days

Signal molecules play
a major role for stem
cells to create life

TeloYouth's Super Ingredients

**BioActive Peptide
Complex™**
Restores Signal
Molecules

1. FERTILIZED TISSUE EXTRACT (NORWEGIAN FTE™)

Contains powerful pre-embryonic molecules. These signal molecules activate stem cells and rejuvenation throughout the body. They help form and create stem cells, enzymes, immune proteins, nucleic acids and balance hormones shown in a number of clinical studies. FTE™ is the 'SUPER REJUVENATOR AND RECHARGER' of the body.

2. MARINE COLLAGEN

Is the 'SUPER GLUE' that holds your body together whether you want glowing hydrated skin or you're an athlete looking for faster recovery. It is most prevalent in the connective tissue structures like your skin, hair, nails and bones.

3. L-ARGININE

A powerful 'SUPER TRANSPORTER' that supports the natural release of nitric oxide and other components vital to the body by helping blood vessels relax for improved blood flow in the arteries improving cardiovascular health.

**BioActive Polysaccharide
Complex™**
Restores Signal
Receptors

1. ALOE VERA GEL EXTRACT

Stimulates an increased release of our body's stem cells dramatically by as much as 700-800%. It is unsurpassed in its ability to support wound healing, reduce inflammation, boost antibacterial and antiviral properties, blood sugar regulation and mitochondrial enhancement and repair. It's the 'SUPER HEALER' of the body.

2. CHAGA MUSHROOM

The 'SUPER PROTECTOR' is one of the most medicinal foods and overall tonics known. The vast amounts of melanin found in Chaga captures and generates energy for the body due to its ability to convert sunlight and ionizing radiation into useful energy. Its phyto-chemicals have very unique and powerful radio-protective properties for EMF protection.

3. RHODIOLA ROSEA

Is versatile in its ability to help the mind, body and emotions adapt to stress. The 'SUPER RELAXER' calms the central nervous system and provides important energetic support to the muscles.
