Our Clients Say

"Keith went above and beyond to help us fix up the home we bought. It needed a new roof, paint inside and out, plumbing & A/C repairs. He had answers to questions and knew how to fix any and everything we had issues with, or got the right professionals in there for a specific task. In addition to the above listed items, he replaced the garbage disposal, lighting fixtures, wired smoke detectors, locks on the doors, along with rerouted the plumbing for a sink in the garage. His prices were very reasonable, he was easy to communicate with, and he consistently followed through. Words can't describe how grateful we are for his knowledge and experience as a contractor. We would definitely hire him again and recommend him to a friend."
