

But Why?

The sky is blue. But why is it blue? When will I know why it is blue? The whale is big. But why is it big? When will I know why it is big? Which sandwich is best to eat? How do I know? I do not know. I want to know which sandwich to eat. I want to know why the sky is blue. I want to know why the whale is so big. I want to know so much!
