

Memo

Date: 2/01/2024
To: All Employees
From: Industrial Relations
Subject: **CVS Caremark** Prescription Lookup

Covered participants can find out the cost/coverage of a prescription by going to www.caremark.com or using the **CVS Caremark** app and creating an account. This account helps determine if a prescription drug is covered, how much the cost is, and if there is a pre-authorization needed on the drug. Make sure to have your CVS Caremark card with your Member ID# while creating the account.

Step 2 of 4

Enter your Member ID

You can find your member ID on your CVS Caremark prescription card or health insurance card.

^ Where can I find my member ID?

CVS caremark

RxBIN 000000
RxPCN ADV
RxGRP RX1234
Issuer (00000) 0000000000

Copay \$\$\$

Expand example cards

If your member ID is not accepted, try:

- Locating a number marked ID or RxID
- Removing the first three letters
- Entering it without the last two digits

Username is the email you input when creating the account. You can change your username later once signed up. Any questions, reach out to Industrial Relations.
