LONDON

## What are K-Tip (Keratin Bond) Extensions?

---

K-Tip extensions are individual strands bonded to the natural hair using keratin. At Understated London, we specialise in Russian-style capsules, also known as pearl bonds.

These bonds are tiny, lightweight, and discreet, allowing for natural movement and undetectable blending.

## Why we use Russian / Pearl Bonds

---

Pearl bonds are designed to mimic the size and feel of natural hair growth.

- Ultra-small, neat capsules for a refined finish
- Lightweight and comfortable to wear
- Ideal for detailed placement and full-head coverage
- Perfect for seamless blending on shorter hair

## Who K-Tips are best for

---

- Clients with shorter hair seeking length or fullness
- Those wanting complete, even coverage throughout the head
- Clients who prefer individual strand movement
- Styles requiring precision and versatility

## Application & customisation

---

Each K-Tip is applied strand by strand and placed strategically to suit your haircut, density, and desired outcome.

We offer both partial and full-head installations, always tailored to create a natural, balanced result.

## Re-bonding & reuse

---

Re-bonding is discussed during consultation and maintenance appointments. Our keratin bonds can be professionally removed and re-bonded for multiple uses, depending on hair condition.

This allows you to maintain your extensions while maximising the longevity of your investment.

## Hair quality

---

We use premium extension hair selected to complement our keratin bond methods, ensuring softness, strength, and longevity.

Hair is chosen to blend seamlessly with your natural texture and colour.

## Maintenance & aftercare

---

- Brush gently as needed without pulling at the bonds
- Avoid heavy oils or conditioners near the bond area

- Always use a heat protectant before styling
- Dry hair thoroughly after washing

## Maintenance schedule

---

K-Tip extensions are typically worn for several months before removal, depending on growth and aftercare.

Your stylist will advise on the ideal timing for removal or re-bonding.

## Booking & consultation

---

All K-Tip services begin with a detailed consultation to assess hair length, density, and suitability.

Book your consultation via [understated.london](http://understated.london) or speak to your stylist in salon.
