## Stowage options

VIKING liferafts are available packed in either high gloss fibre glass containers or versatile valises

### Container

The high-gloss rigid fibre glass containers offer the ultimate protection against exposure to the elements. The container can be mounted on deck or on rail.

### Valise

Our valises are water resistant and come in a modern design. The valise can be removed from the boat if security is an issue, or stored away if place on deck is limited.

### Grab bag

Depending on navigation area and duration of trip, additional equipment could be required. This is packed in a handy grab bag.
