

**TRUCKING
THAT NEVER
STOPS MOVING.**

LEADING BY EXAMPLE.

Samoyed Transport is a Canadian trucking company offering delivery and offloading services all across the country. Our wide array of flatbeds, multi-axles, Roll-Tites, and forklifts allows you to depend on us every single time.

Becoming the industry standard for successful freight delivery was no easy feat. With generations of experience and knowledge in the field, our family-operated business has grown to provide unparalleled accountability and loyalty. Samoyed Transport's success has depended on our attention to detail and safety. We always keep your needs in mind with every step, and that's why we have dedicated driver training and diligent equipment maintenance.

You can depend on us to deliver and unload your material on-time and damage-free, whether it's steel, lumber, or general freight. Having a solid relationship with our customers while promoting safety for our drivers is what keeps us ahead of the curve. With our team of experts on your side, you'll be sure to find the right fleet to get things done.

NEED FLEET? WE'VE GOT YOU COVERED.

Flatbed Trailers

Our open flatbed trailers come with adjustable cargo securement straps, protectors, chains, and binders, providing you with the best service for your regular freight, LTL shipments, and even oversized loads. Samoyed's trailers offer accessibility on all sides and comes in a variety of sizes, including multi-axle trucks for heavy hauls. With the ability to carry freight such as scrap, construction material, equipment, and more, we'll find the right truck to transport your goods.

Roll-Tite Sliding Tarp System

Samoyed Transport's Roll-Tites offers faster access to freight, while also protecting your material from the elements. Thanks to our sliding tarp systems, specialized cargo like machinery with milled surfaces can easily be loaded without the time and care needed when using heavy tarping. With rapid loading/unloading available from both sides and above, your freight is guaranteed to be delivered faster and more efficiently.

Forklifts

Our Moffett forklift is a lightweight solution for unloading cargo on site. This three-wheel piggyback is suitable for rough terrain and bad weather, which is exactly what you want to avoid freight damage and increase time management. Easy to mount on the back of a truck or trailer, this small but mighty forklift makes unloading a breeze.

WHEN YOU DELIVER WITH US, YOU'VE GOT:

Multiple units available 24 hours a day

\$5 million liability insurance

Electronic logs and GPS tracking in all trucks

Guaranteed quotes for 60 days

Drivers fully trained on accident prevention and safety

Equipment regularly inspected and serviced

Inspections and repairs done with reputable mechanics

TRANSPORT DONE RIGHT.
