Statement

HECTOR DIAZ

Daniela Miljana Kovačić Muzio

B. September 24, 1983 - Punta Arenas, Magallanes, Chile.

My art and life are two things that are completely interlocked, therefore my work is constantly changing.

There is a connecting thread between the pieces I make, the self-affirmation of identity and reflections upon the things that trouble or fascinate me, which I usually depict through the representation of women and children.

Most of the time I develop a subject matter through series. This way I allow myself to explore a theme without needing answers right away and, most importantly, with the freedom to change my mind.

In a way, I try to make sense of the world through paintings.
