ADDITIONAL QUESTIONS:

1. **Did the commodity distribution vary from your original plan (in terms of the number/location of beneficiaries, distribution partners, monitoring, etc.)? If so, how?**

YES, we were approached by more companies than originally expected.

2. **Were the commodities of the quality and type that you anticipated? If not, please explain.**

In general, the container was well packed. We came across boxes with broken №315 sterile bags with medical supplies devices. Also, some boxes were half-empty. Table viewing - 4 pieces, instead of 5 pieces. Operating Table – was not included in the load, but included in inventory.

Act №002 / 15 dated 04/08/2015 discrepancy of the goods described in the packing list.

3. **Other comments:**

None

^ The Charitable Organization "Fund "Way of Unity"" is supporting the Children's City Clinical Hospital No.3

We are proud to admit that the Children's City Clinical Hospital No.3 in Odesa is considered to be one of the best city's hospitals. We are happy to provide help to children of our city, especially to those who need it above all others - those are the children receiving medical treatment. Moreover, we would like you to pay special attention to orphans and those children with no parent care who are living at the this hospital. Unfortunately, due to regulations we were not allowed to take pictures of these children, but we are glad to say we were surprised by the happiness in their eyes. All the hospital rooms are clean and cosy. Everything is done for the comfort stay. The Chief Physician Elena Artemova and her personnel deserve great merit for the achieved atmosphere in the hospital. A big thank you for your devotion from administration and staff.
