ADDITIONAL QUESTIONS:

1. **Did the commodity distribution vary from your original plan (in terms of the number/location of beneficiaries, distribution partners, monitoring, etc.)? If so, how?**

Yes, because we were approached by more organizations, as well as private persons (disabled, pensioners) who are in need of humanitarian assistance

2. **Were the commodities of the quality and type that you anticipated? If not, please explain.**

In general, the container was well packed. It was disagreement on the inventory of this container.

Shoes - 6 drawers, instead of 14 pieces.

Diapers for adults - 5 drawers, instead of 11 boxes,

Bed Medical - 133 box instead - 166 boxes,

Toys - 5 sacks and 4 drawers, instead of 23 bags,

The number of kilograms announced the invoice clothes weight - 2517 kg, but in fact - 1012 kilograms, according to act №004 / 15 dated 07.08.2015 about the mismatch of the goods described in the packing list.

3. **Other comments:**

Remaining Humanitarian Aid is still in warehouse due to low funds available for transportation. We are collecting enough money to pay for transportation of humanitarian aid and distribute them according to financial ability.
