ADDITIONAL QUESTIONS

- 1. Did the commodity distribution vary from your original plan** *(in terms of the number/location of beneficiaries, distribution partners, monitoring, etc.)? If so, how?*
The cargo that we received was more than we hoped for, therefore we were able not only fulfil all the promises to organizations we already planned to support but provide multiple hospitals that were not on our list of distribution. Thank you for your generosity
- 2. Were the commodities of the quality and type that you anticipated? If not, please explain.**
Thank you very much for your kind donation, cargo arrived at our warehouse in good condition and is better than we expected.
- 3. Other comments:** No other issues or suggestions, we will be very happy if your organization will work with us again and provide us with additional aid of similar quality.

Title: History

A team of AGBEF with their the president Mr. Aliou Diane would like to express their deepest gratitude to World of Connections program, Life Recourses International and Churches of Christ for heartfelt assistance to our organization.

We want to say a special thank you to all people that were willing to put in their time and effort in this, especially to John Kachelman Jr. and Charita Shteynberb for their patients and constant willingness to help.

On August 15, 2018, we were able to deliver a large sum of humanitarian aid to a different organization which supports orphans and poor people of Guinea. But our largest donation was to Infections disease hospital. This donation helped ease the situation of the large poor population of people that are sick with aids and are not able to support themselves.

We are extremely proud of being part of this project and hoping to work with all of you again to improve the situation of our people.
