ADDITIONAL QUESTIONS

1. **Did the commodity distribution vary from your original plan** (in terms of the number/location of beneficiaries, distribution partners, monitoring, etc.)? **If so, how?**

No, because we intended to donate it to other needy people outside the distribution area, we really want our field of work will be big to help the people in need. We thank you very much for the products we received, it was of good quality, we were able to get out customs without difficulty. Were the commodities of the quality and type that you anticipated? If not, please explain.
