FOR IMMEDIATE RELEASE

March 20, 2022

MEMBERS OF CONVOY TO SAVE AMERICA PARTING WAYS WITH DENBY MELISHA MORGAN (D'ARIAS) IN LIGHT OF POTENTIAL CHARITY FRAUD, INCONSISTENT STATEMENTS, AND UNFULFILLED PROMISES.

Due to putting the rest of the team in potential legal and financial danger, among other offenses, co-founder of Convoy to Save America (CTSA), Denby Melisha Morgan, has been removed from CTSA effective March 8, 2022.

After missions to deliver supplies to convoy truckers at the Canadian border and Washington DC, an estimated \$20,000 worth of contributions (online donations, cash donations, supplies, gas cards, etc.) has still not been delivered to their promised recipients. The majority of supplies and funds are still in the possession of co-founding member, Ms. Morgan. Her lack of transparency and failure to properly obtain a non-personal bank account for accepting financial contributions were, in part, reasons for the decision to continue the mission in her absence. Despite multiple warnings, her failure to act put the rest of the team in potential legal and financial jeopardy. As a result, Daniel Wagner and Pennie Fay, have cut ties but are continuing their mission under the Convoy to Save America name.

After having been removed as admin of the CTSA Facebook group, Ms. Morgan immediately launched a social media campaign with the goal of destroying CTSA and its remaining members' reputations via the court of public opinion. In addition to the potential legal liabilities, it was this very type of behavior that guided their decision to remove her in the first place.

According to Daniel Wagner, *"The red flags became too numerous to ignore. We can't be, in good consciousness, dedicated to fighting lies when many of those lies were originating from within our own organization."*

As per Pennie Fay, *"On multiple occasions, we spoke with her regarding her behavior and actions. She denied any wrongdoing and projected any responsibility onto others, while simultaneously accusing us of outing her in public. For the record, we only ever spoke with*

her privately."

To name a few of the potential legal issues:

- Money incoming/outgoing not properly accounted for
- Failure to report and track cash donations, electronic donations, and expenditures
- Failure to deliver supplies as promised on at least three separate occasions (Buffalo, NY, Lexington, VA, Hagerstown, MD, etc.)
- Loading donations from Knoxville that did not belong to CTSA from the people who donated to Freedom Convoy Tennessee, then failure to deliver those items
- Unsubstantiated claims that a lawyer told her we did not have to declare cash donations
- Contacting and bribing Mr. Wagner's spouse for readmittance and reinstatement of admin access to the CTSA Facebook group

It is because of these potential legal and financial dangers, among other offenses, co-founder of Convoy to Save America(CTSA), Denby Melisha Morgan, has been removed from CTSA effective March 8, 2022.
